**EVA VON GENCSY AND ARNOLD SPOHR** as they will be seen in the lead roles in the graceful "Black Swan Pas de Deux" from "Swan Lake" when the famous Winnipeg Ballet Company performs in this city at the High School auditorium this Saturday evening. In addition to being a brilliant dancer, Arnold Spohr also has been referred to by the critics as one of the coming choreographers of this generation. Hungarian born, Miss Von Gencsy first studied ballet at the famous Russian Ballet Academy at Budapest. In addition to her various roles in the classic and modern ballets, local audiences will also see the lovely ballerina in the lead in "The Shooting of Dan McGrew" ballet, a role which she has made famous.

## Alderman Christian Drive Chairman

## City Red Cross Elects Officers

H. W. Corbett, of Kaleden, was elected pro tem president of the Penticton branch of the Canadian Red Cross Society at the well attended annual meeting of that organization held in the Red Cross Centre on Wednesday of last week.

Guest speaker at the meeting was Mrs. R. C. de Sate, provincial director of home nursing and first aid. Present at the meeting were representatives from the various local service organizations and also a good representation from Kaleden and Okanagan Falls.

In addition to the election of officers, business of the meeting included reports from the various committee chairmen and plans for this year's Red Cross campaign.

Alderman Frank C. Christian was appointed campaign chairman and planning for the 1953 drive will get underway immediately with a meeting of the committee scheduled for tomorrow night at Alderman Christian's home.

Other pro tem officers chosen at the meeting were: Jack Pelley, first vice-president; William Fraser, second vice-president; Mrs. W. E. Newton, secretary; R. H. Beckett, treasurer. Honorary president of the organization is Mrs. W. S. Reeder.

**DIRECTORS**  
Directors of the local branch of the Red Cross include: Mrs. C. G. MacDonald, Mrs. J. F. Riley, W. Hanlon, V. B. Robinson, W. Matlock, Miss R. K. Owen, and Van R. K. Dafeo, all of Penticton; Mr. and Mrs. H. W. Corbett, of Kaleden; and Major H. Fraser, C. Yule and William Fraser, of Okanagan Falls.

Committee chairmen appointed included: Alderman Christian, campaign; V. B. Robinson, disaster relief; Mrs. Fred Mason, PHN, and Miss Joan Appleton, PHN, public health; Mrs. Frank Bowfield, blood transfusions; Mrs. A. E. Tidball, swimming and water safety; Mr. Pelley, administration of Red Cross Centre; Miss Mary Asbell and A. A. Shiplon, Junior Red Cross; Mrs. Leighton Travis, RN, home nursing; Mrs. D. Deacon, RN, teen club; Mrs. G. M. Finniss, publicity; Mrs. L. V. Newton and Mrs. Reeder, work room.

## Monthly Meeting For Board Of Trade May Be Revived

Board of Trade executive meetings will in future be held weekly at 5 p.m. each Monday, council of the Board of Trade decided at a meeting this week.

The council hopes that, besides keeping in closer contact with board matters, it will be able to handle a greater volume of business, subject to ratification at general meetings.

The council also suggests that dinner meetings should be held monthly and that a first class speaker should be obtained for each meeting.

## Confidence In Leadership Is Demonstrated At 64th Fruit Growers' Parliament

## CHAUTAUQUA IS SCHEDULED FOR END OF MONTH

Penticton visit of the panel of fruit experts who will conduct the annual chautauqua series in the Okanagan this year is scheduled for January 28 in the Hotel Prince Charles.

Six speakers will form two groups. Group one will address growers here at 2 p.m., while the second session will be at Naramata. The groups will alternate in the evening at 7:30 p.m.

Group number one comprises Dr. L. C. McIntosh, who will speak on orchard diseases; Dr. C. G. Woodbridge, mineral supplies, and Dr. M. D. Proverbs, on insects and rodents.

Group two speakers and their subjects are: G. L. Calver, orchard machinery; R. G. Garrish, sprinkler irrigation and cover crops, and A. W. Watt, blossom thinning and pollination.

The chautauqua will alternate between Keremeos and Kaleden on January 27 and on January 29 Summerland and Peachland will be visited.

## No Change In RCMP Contract Until August?

Hope that the city's contract with the RCMP will be extended to August of this year to coincide with the expiry of the contract between the RCMP and the provincial government was expressed by Mayor W. A. Rathbun on his return from a Vancouver conference this morning.

The conference was called by the Union of B.C. Municipalities to discuss the RCMP intention to increase police costs to the municipalities from \$1,400 to \$2,000 per year, per man.

"If we can get the contract extended at the 1952 rate it will mean a saving to Penticton of about \$4,000 this year," Mayor Rathbun told the Herald.

The dominion government at present pays 60 percent of RCMP costs and the remainder is paid by the municipality or the province.

Mayor Rathbun will report on the conference at the meeting of the Okanagan Valley Municipalities' Association in Kelowna next month. It is unlikely that any contracts will be signed before that time.

## Re Torn Nylons—No Negligence

A claim for a new pair of nylon stockings, made by a city woman, was rejected by City Council this week on the advice of the city solicitor.

The claimant declared that she had stumbled into a hole on Nanaimo avenue near the bridge. She stated that a post had been removed thus leaving the hole into which she had stumbled.

The solicitor, to whom the matter was referred, declared that the city was not guilty of negligence, nor was it liable for the damage to the stockings.

**VERNON** — Delegates to the 64th annual BCFGA convention scattered to their homes throughout the valley last Thursday, following one of the most strenuous and one of the most successful conventions in the association's long history.

The three day convention, which included two lengthy night sittings, was outstanding for its lack of bickering and concentration upon the one theme — to improve the quality of fruits and to market it in more attractive form.

## A. R. Garrish Again President

Confidence in their leadership was expressed by the 350 delegates who returned A. R. Garrish, Oliver, to the presidency and re-elected many other leaders.

Serving on the BCFGA executive for a second term under Mr. Garrish are John S. Hall, Erickson, Kootenay representative; J. M. Kosty, Vernon, and J. E. Wood, Salmon Arm, representing the Northern District Council; S. Pearson, Glenmore, and S. J. Land, Okanagan Centre, Central District Council; C. McKenzie, Summerland; and J. A. English, Southern District Council.

Elected to the Board of Governors of B.C. Tree Fruits Ltd. were J. S. Hall, Kootenays; T. S. Towgood, Oyanma and D. Glover, Vernon, Northern District Council; James Snowsall, Glenmore, and L. G. Butler, East Kelowna, Central District Council; W. R. Powell, Summerland, W. Gordon Wright, Oliver, and Albert Millar, Oliver, Southern District Council.

B.C. Fruit Processors Ltd., A. W. Gray, Oyanma, and Peter Wing, Kamloops, Northern District Council; L. G. Butler, East Kelowna, and S. D. Price, East Kelowna, Central District Council; and W. R. Powell, Summerland, C. C. MacDonald, Penticton and L. Deighton, Oliver, Southern District Council.

Re-elected to the B.C. Fruit Board are A. G. DesBrisay, Penticton; G. A. Barrat, Kelowna, and J. G. Campbell, Salmon Arm.

This is the first year that the association has elected its officers on the floor of the convention.

## Representation Basis Unchanged

Delegates rejected an extraordinary resolution which would have changed the basis of representation at the convention. This would, if passed, have provided for each BCFGA local to be entitled to one delegate for every 500 acres of orchard planted in fruit trees within the local's area.

To change the by-laws requires a two-third majority vote and the extraordinary resolution went down to defeat 50-23, following spirited debate.

Approval was given to increasing the president's honorarium from \$1,000 to \$1,800. In making this recommendation J. G. Campbell declared that it should be possible for any grower within the organization to take the office of president and the increase was designed to enable the incumbent, Palmer, to be able to pay for help on his own orchard when BCFGA duties necessitated his absence.

Continuation of the annual \$150 UBC scholarship was also approved.

The convention voted a \$6,000 research grant to the Summerland Experimental Station, an increase of \$1,000 over previous years. This was made at the request of Dr. R. C. Palmer, who explained that the additional amount was required to complete research projects being carried on at the station.

J. G. CAMPBELL

## WIDE VARIETY OF TOPICS AT UNION PARLEY

A large representation of pack-housers workers from the Penticton area will attend the annual convention of the Federation of Fruit and Vegetable Workers' Union (FVWU) to be held in Vernon this Friday and Saturday.

Officials from all fields of industry and labor have been invited to speak during the convention and subjects covered by the speakers and by resolutions include automobile insurance, fair employment practice, health insurance, hospital insurance, immigration, old age pensions, unemployment insurance, workmen's compensation, the CBC, taxes and various internal matters.

Presiding over the convention will be Brian Cooney, FVWU director of organization, who succeeded William Sands, when the latter was appointed deputy minister of labor in the B.C. government.

The parley will open Friday afternoon and speakers at the opening ceremonies included Vernon's Mayor A. C. Wilde, Lorne H. Shantz, MLA for North Okanagan, J. A. Illington, representing the Canadian Legion, and Mr. Cooney.

Other speakers at Friday's session will be F. L. Fitzpatrick, president of the Okanagan Federated Shippers' Association and A. R. Garrish, BCFGA president.

Guest speakers at Saturday's session include Chris Pritchard, commissioner of the Workmen's Compensation Board; W. McKinty, regional superintendent of the Unemployment Insurance Commission, and G. A. Wilkinson.

## Oliver Guide To Represent B.C. At Coronation

Miss Shirley Orr, a Ranger from Oliver, will represent B.C. Girl Guides in the Canadian contingent to attend the June Coronation ceremonies in London.

Miss Orr was chosen by officials at Guide headquarters in Toronto. One Guide from each province will make up the Canadian group.

Miss Orr will leave for England in May. The Guides will spend a week in London for the Coronation and another week will be spent visiting other parts of the British Isles.

Miss Orr has been a member of guide and ranger groups for the past seven years.

She was a B.C. representative at a national Girl Guide conference held in Ottawa last year.

## Experts' Report On City Management To Be Studied By Council

Individual members of City Council will study the report of Stevenson and Kellogg, business management experts, before meeting in a body to discuss the report. This was decided Monday when council authorized payment of \$2,000 to the company for its services in carrying out a survey of the city hall management here. The 1952 council had tentatively estimated cost of the survey at \$2,000.

Value of the research work was readily admitted by all delegates, but some maintained that such work should be financed by the dominion government as the benefits of such research are extended to fruit growers throughout Canada and to growers in other countries.

Dr. Palmer told of experiments being carried on to find a new type apple combining the best qualities of the McIntosh, Red Delicious and Golden Delicious. There are 2800 seedlings at the farm, Dr. Palmer told the convention. "Any one of them may be the one we are looking for, but," he smiled, "apple breeding is one of the world's worst gambles."

Delegates took back to their local the reassuring words of the Provincial Minister of Agriculture, the Hon. Kenneth Kiernan, who, at the convention banquet, declared:

(Continued on Page 6)

at fault and gave a thoroughly sound performance as the courageous and determined Charlotte. Much midnight oil must have been burnt to acquire such easy fluency in so long a part.

Emily, obstinate, passionate and acerbic, was played by Olive Wilson, who handled this difficult character with great emotional sincerity. The director might, with advantage, have permitted a more emotional interpretation.

Florrie Walsh was charming as the quiet and gentle Anne. Her interpretation threw into strong relief the widely varying characters of the three sisters. A pleasing and very natural performance.

Perry Darling was very effective in the unsympathetic role of the Reverend Patrick Bronte, the "pariah" of the Brontes, and succeeded in portraying not only the narrow mind and innately selfish nature of the old

clergyman but also his underlying honesty and sincerity according to his lights. His deep love, in spite of himself, for his wayward son was touchingly shown. Another very good character study.

Ruth Riley gave a delightful performance as the dour, outspoken old family servant, Tabitha, whose gruff exterior falls to hide the love and devotion she feels for the whole Bronte family. Tabitha won her way into the hearts of the audience.

An outstanding performance was given by Bill Perkins as the wastrel son, Branwell. A drunken man in a play is often regarded as a subject for mirth but Branwell was portrayed as such a tragic figure, in his degradation, that the audience, far from laughing, watched in shocked and pitying silence.

Les Harper doubled the parts of the Reverend William Woolghman

## March 11 Tentative Opening Date For New Hospital On Carmi Road

Tentative date for the opening of Penticton's new hospital on Carmi road has been set for Wednesday, March 11, a hospital board spokesman stated today.

Although the official ceremony will be on that date patients will not be transferred from old building until about a week later. Hospital board trustee J. Russell Jordan is working with Alderman Frank C. Christian and Dr. J. J. Gibson on program arrangements.

A high government official will be asked to officially open the new hospital, but no details are yet available.

Local dignitaries, government officials and BCHS officials will be invited to witness the ceremonies.

## Death Comes Suddenly

## Hon. Grote Stirling Laid To Rest Today

The Hon. Grote Stirling, M.P. for Yale for nearly a quarter of a century prior to his retirement in 1947, and Canada's minister of national defence in 1954, is being laid to rest today from funeral services being conducted in Kelowna.

The man who, at the time of his retirement, had a record for continuous service at Ottawa exceeded by only four members of the House of Commons, and who was undefeated during his lengthy period of political campaigning, suffered a stroke last Thursday and died in Kelowna hospital on Sunday. He was 77.

Representatives from all parts of the far-flung constituency, which has only recently been divided in half, have converged on Kelowna this afternoon to pay their last respects to a man who left a most emphatic mark on the life of the southern interior.

Mr. Stirling first won this riding in the by-election of 1924 when he succeeded J. A. McKelvie, editor of the Vernon News, on the latter's death. By June of 1945 Mr. Stirling had marked up his seventh straight victory in the riding, continuing to represent the Conservative cause. He became defence minister on November 17, 1944, entering the Bennett cabinet, and though this government met defeat the following year, Mr. Stirling himself never suffered a reversal at the polls.

In October, 1947, acting on the advice of his physicians, Mr. Stirling tendered his resignation to the House. Through-out the previous session he had suffered four severe attacks of bronchitis, and was confined to bed continuously on returning to Kelowna.

He did not regain consciousness from the results of the stroke last week, passing away three days later.

He was a civil engineer by training, and a fruit grower, and lived in the Kelowna area since coming to Canada in 1911.

Born at Tupperidge Wells, England, the son of a Royal Navy captain, he lived to see one of his sons reach equivalent naval rank. He received his education at University College, London, and graduated as a civil engineer from the Crystal Palace Engineering School.

Mourning his loss are his widow, who was his second wife, a sister in England, two daughters, Mrs. R. Stirling of Kelowna and Mrs. Britton Brook, in England; and two sons, Andrew, of Kimberley, and Michael, in Norfolk, Virginia.

Among the pallbearers at today's funeral was A. S. Hatfield, of Penticton, a long-time friend and supporter, who represented this area.

## Allocation Requested

## Planning Survey May Cost \$7,500

Recommendations of the town planning commission's report, which included a request for \$7,500 to be used in the compiling of data for a comprehensive plan of the city for future zoning purposes, were received by City Council, Monday, and the request was referred to the 1953 estimates.

The commission plans to enlist the services of a firm of planning experts if the money is allocated. In the report Syd. A. Hodge, chairman of the commission, told council that lack of a master plan is making the planners' job increasingly difficult.

The report explained that in all aspects of the commission's work the members consistently feel the need of an official plan.

"In many cases we are presented with plans which do not conform with the principles of good town planning and we are often forced to give consent, simply because we have no master plan covering all areas to guide us," he stated.

The report also requested council to ask persons presenting plans for subdivisions to submit scale drawings and an explanatory letter. This council agreed to do and later in the evening two requests to subdivide were returned with the suggestion that a scale drawing should be submitted.

The planners' report also asked council to ensure that members of the city hall staff recognize the fact that the commission should be approached through council. Some staff members, the letter complained, were referring applicants to individuals on the planning commission.

Accounts for payments totalling \$380,317 were tabled Monday pending complete study by the city's finance chairman.

HON. GROTE STIRLING

to Canada in 1911. Born at Tupperidge Wells, England, the son of a Royal Navy captain, he lived to see one of his sons reach equivalent naval rank. He received his education at University College, London, and graduated as a civil engineer from the Crystal Palace Engineering School.

Mourning his loss are his widow, who was his second wife, a sister in England, two daughters, Mrs. R. Stirling of Kelowna and Mrs. Britton Brook, in England; and two sons, Andrew, of Kimberley, and Michael, in Norfolk, Virginia.

Among the pallbearers at today's funeral was A. S. Hatfield, of Penticton, a long-time friend and supporter, who represented this area.

## Large, Appreciative Audience Applauds "The Brontes"

For their major production of the season the Penticton Players presented, at the Anglican Hall on Friday and Saturday last, a three act play by Alfred Sangster entitled "The Brontes".

This play, a mixture of fact and fiction, concerns the private lives of the Bronte family and, while undoubtedly it will have a strong attraction for fervent admirers of the Brontes and all their works, yet judged strictly upon its merits as drama it falls something short of perfection.

Some plays in the jargon of the theatre are said to play themselves, but the "Brontes" assuredly does not fall into this category. Not only are there the many normal difficulties of the "period" play—scenery, setting, properties, costumes, make-up, lighting, deportment, speech and so on—but this particular play has a cast of 17 and covers no less than 20 years, spread

over nine scenes, necessitating constant costume changes.

Such obvious and inevitable problems might well daunt the boldest amateur director and Val Morchio is to be congratulated on a smooth and well-balanced production.

The costumes, while somewhat mixed, were, on the whole, quite good, some of them being genuine period pieces.

The modes of a by-gone era demonstrated the truth that the women of today lack the dignity of deportment possessed by her grandmother. The settings, naturally, presented difficulties in a community with limited resources but great efforts were made and a commendable verisimilitude was attained.

**LONGER THAN USUAL**  
The play is longer than is usual and some of the scenes might, with advantage, have been taken a lit-

tle more quickly, notably the scene in the pensionnat which lacked both speed and verve.

The play was very well received and the large audience on Friday followed the action with intelligent appreciation and interest was well maintained throughout.

It is high time for drastic action with regard to the curtain in the Anglican Hall. The end of every scene, and there were nine, was ruined by the failure of the curtain to function properly. This has been going on for years and audiences should not be subjected to it any longer.

So much for the play and now for the players.

**SOUND PERFORMANCES**  
The leading role, long and arduous, was in the capable hands of Rose Owen, who, on the stage almost throughout the play, was never

at fault and gave a thoroughly sound performance as the courageous and determined Charlotte. Much midnight oil must have been burnt to acquire such easy fluency in so long a part.

Emily, obstinate, passionate and acerbic, was played by Olive Wilson, who handled this difficult character with great emotional sincerity. The director might, with advantage, have permitted a more emotional interpretation.

Florrie Walsh was charming as the quiet and gentle Anne. Her interpretation threw into strong relief the widely varying characters of the three sisters. A pleasing and very natural performance.

Perry Darling was very effective in the unsympathetic role of the Reverend Patrick Bronte, the "pariah" of the Brontes, and succeeded in portraying not only the narrow mind and innately selfish nature of the old

clergyman but also his underlying honesty and sincerity according to his lights. His deep love, in spite of himself, for his wayward son was touchingly shown. Another very good character study.

Ruth Riley gave a delightful performance as the dour, outspoken old family servant, Tabitha, whose gruff exterior falls to hide the love and devotion she feels for the whole Bronte family. Tabitha won her way into the hearts of the audience.

An outstanding performance was given by Bill Perkins as the wastrel son, Branwell. A drunken man in a play is often regarded as a subject for mirth but Branwell was portrayed as such a tragic figure, in his degradation, that the audience, far from laughing, watched in shocked and pitying silence.

## February 12 Date Set For Nurses' Valentine Dance

The Nurses' Valentine dance, sponsored annually by the Penticton Chapter of the Registered Nurses' Association of British Columbia, will be held on February 12 in the Canadian Legion Hall.

Miss Patricia Hasell, who has

been named general convener of the forthcoming social event, will have many capable committee chairmen assisting her with arrangements.

Mrs. Evelyn Rainbow, convener of refreshments, will have on her committee Mrs. Lance Webber and Mrs. Herman G. Akerman.

The decorations committee, headed by Miss Phyllis Pollock and Miss Nelda Caplette; Mrs. T. H. Osborne, Mrs. Lawrence Bartlett and Mrs. W. D. Lusk are on the committee which will be in charge of the food hampers' raffle and advertising for the dance will be under the supervision of Mrs. Fred Mason and Miss L. Key.

Proceeds realized at the annual affair will go toward the Hospital Furnishing Fund pledge made by the local R.N. Association and also to a current fund being raised to decorate the nurses' home, which will be occupied when the new hospital is completed.

### Successful Tea Sponsored By B.P. Women's Club

Another successful annual tea was held on Saturday afternoon in the Canadian Legion Hall under the auspices of the Penticton Business and Professional Women's Club.

Among the special attractions at the mid-winter social event, convener by Mrs. Juan Puddy and Miss Mickey Bell, were the sale of homecooking and a wide variety of flowering potted bulbs. The latter feature, a first venture in an endeavor to raise funds, was most successful.

Guests attending the tea were received by the Business and Professional Women's Club president, Miss Grace Alous.

A lovely floral arrangement of pastel colored flowers and matching tapers ornamented the lace-covered tea table at which a number of city club women presided. Among them were Mrs. Hugh P. Barr, president of the Ladies' Senior Hospital Auxiliary; Mrs. J. L. Palmer, regent of the IODE; Mrs. John Bowen Colthurst, Women's Institute president; and Mrs. Frankie Palmer, Soroptimist Club president.

Door prizes at the tea were received by Mrs. Murray, Mrs. W. Campbell and Mrs. David Craig. The attractive donations were a permanent wave, by the Orchid Beauty Salon, cosmetics by Mrs. E. G. Price and an angel food cake by Miss Martin Akopas.

Church Manse Scene Of Bruce-Collinson Rites

Rev. Ernest Rands, pastor of the Penticton United Church, officiated at a quiet but pretty ceremony held in the church manse on January 11 which united in marriage Miss Alma Alice Collinson, of Bridesville, and William Edward Bruce, of Kettle Valley.

The bride is a member of the Bridesville school teaching staff and the groom farms at Kettle Valley, where they will reside.

## The Women's Page

MRS. HAROLD MITCHELL

DIAL 4055

### Dean-Cook Rites Solemnized Here By Rev. E. Rands

The Penticton United Church Manse was the setting on Saturday afternoon for the marriage of Gladys Mather Cook, eldest daughter of Mr. and Mrs. W. J. Duncan, of this city, and Ronald Dean, son of Joseph Dean, of Vernon, and the late Mrs. Dean. Rev. Ernest Rands was officiating clergyman.

The bride chose pressed satin in poudre blue for her lovely frock fashioned in the Queen Elizabeth mode, and which featured the popular Empire style waistline. Tiny flowers in blending shades of blue mingled with pearl clusters to adorn her illusion veil headress. Pearls, the gift of the groom, were worn as jewellery and color accent to the bridal ensemble was added by a pink rose corsage studded with rhinestones.

A knitted suit in a dusky rose color, beaded velvet hat and a blending rose shaded afternoon carriage were worn by matron of honor, Mrs. James Fleming. W. J. Noel was bestman.

A reception was held following the ceremony at the home of the bride.

Assisting in receiving the guests were her mother, attractively attired in a navy blue ensemble, and the groom's step-mother wearing a grey suit with blue accessories. Robert McIntosh proposed the bride toast and Lester Duncan, brother of the bride, gave the toast to the matron of honor.

A two-tier cake centred a lace-covered table ornamented with a low bowl of pastel colored flowers. Servers were Mrs. A. W. Duncan, Mrs. Alex Merriott, Mrs. Lester Duncan, Mrs. James Fleming, Mrs. George Woodin and Mrs. Alfred Duncan.

The bride donned a navy and rose suit with black accessories and muskrat coat for travelling on a honeymoon in Vancouver and Victoria.

The newly-wed couple will reside at 238 Douglas avenue on returning home.

Out of town guests at the wedding were Mr. and Mrs. Joseph Dean and Mr. and Mrs. Henry Tremblay, all of Vernon.

### Colored Slides By Miss E. Sutherland

The regular meeting of the Penticton branch of the British Columbia Registered Music Teachers' Association was held on January 11 at the home of Mrs. E. J. Spence, Braid street.

Following a short business session an interesting talk was given by Miss Elizabeth Sutherland on her trip to Europe last year. She illustrated her address with colored slides taken while spending a year as an exchange teacher in Scotland.

SHAPE OF THINGS TO COME — Severe slimness was forecast for spring fashions, but NY designers handed viewers a surprise at recent showings (above) an understated light bodice with full white chiffon skirt. Note sling-stole.

### Miss Florence Vowles Honored At Shower

Miss Florence Vowles, a bride-elect of this week, was the honored guest at a miscellaneous shower given on Thursday by Miss Joanne Husband at the home of her parents, Mr. and Mrs. Fred Husband.

Many attractive gifts, contained in a gaily decorated pink and white box were presented to the honoree. Following an evening of games and contests dainty refreshments were served by the hostess with the assistance of Mrs. Husband.

Present at the shower were the Misses Kay Owen, Eleanor Hines, Peggy Weaver, Joan Nagle, Chickie Baker, Pat Christian, Pat Cochran, Maureen Monahan, Shirley Lynch and Mrs. William Vowles, Mrs. Clair Baker, Mrs. Don Sutherland, and Mrs. J. H. Christian.

### Mrs. F. DeLaura Redland Rebekah 1953 Noble Grand

At the impressive ceremony held in the Odd Fellows Temple during a regular meeting, members of Redland Rebekah Lodge No. 12 installed their slate of officers for the ensuing year. Installation ceremonies were under direction of Mrs. Vandie Erout, district deputy president, assisted by Mrs. Beth McKinnon and installation staff.

Several visitors were welcomed to the meeting, including John Macklem, past grand master of the Jurisdiction of Saskatchewan, now a Penticton resident. Mrs. Grace Evans, P.N.G., was presented with her jewel, a gift from the lodge in recognition of her services as noble grand.

Mrs. Dorothy King, noble grand for the past term, now a resident of Kamloops, was unable to attend. Co-conveners for the annual Rebekah Valentine Tea being held February 14th are Mrs. Vandie Erout and Mrs. Florence Gilbert.

At the close of the meeting a banquet was served by members of the social committee in the lodge banquet room.

Last night several members of the Odd Fellows Lodge and Rebekahs travelled to Kelowna where public installation of the Kelowna Lodges was held.

UCT Auxiliary Tea Hostess For Visiting Officer

Mrs. R. A. Patterson was hostess at her home at Skaha Lake when members of the Ladies' Auxiliary of the Canadian Council, United Commercial Travelers, entertained at tea on Sunday afternoon honoring Mrs. A. E. Hullin, of Seattle.

The honored guest, who is president of the Ladies' grand auxiliary of Oregon, Washington and British Columbia, is accompanying her husband "Bob" Hullin, who of recently visited Penticton last week as grand counselor of the United Commercial Travelers of the north-west area.

More than thirty guests were present at the tea to honor the distinguished visitor.

Presiding during the tea hour were Mrs. Ian McPhee, whose husband is president of the Penticton United Commercial Travelers, and Mrs. David Gillespie, president of the L.A.

KEEP DUST from marring your camera's lens by wiping it occasionally with a small, sturdy cloth. Be careful not to allow moisture to seep into the crevices. A clean, lint-free cloth will dry and polish the lens so that it will operate efficiently.

### Mrs. N. G. Kincaid Returned To Presidency Of Legion Auxiliary By Acclamation

Returned to the office of president by acclamation Mrs. N. G. Kincaid was installed as head officer of the Ladies' Auxiliary to Branch 40, Canadian Legion, at pleasing ceremonies held on Thursday in the Alexander Room of the Legion Hall.

Others assuming office at that time were Mrs. Frank Erout, first vice-president; Mrs. Wilfred Gougeon, second vice-president; Mrs. James Bolton, secretary by acclamation; Mrs. Richard Knight, treasurer and Mrs. Ray Thomas, Mrs. Ronald Dean and Mrs. Helen Nelson, executive members.

Mrs. Arnold Johnson was selected Sergeant-at-Arms, Mrs. James Haughton, standard bearer and Mrs. Clarence Jordan, pianist.

Mrs. Wally Mutch, a past president of the Legion L.A., was installing officer.

An excellent financial report was presented by retiring treasurer, Mrs. Frank Erout, who was completing

her fifth consecutive year in that capacity. The constitution of Legion Auxiliaries allows the treasurer to serve only for five years and with the expiration of this period Mrs. Erout will continue to serve the local L.A. but as its first vice-president.

A vote of appreciation was extended to the treasurer for her outstanding service.

The reports showed an auxiliary membership of 105 with a total of \$439 donated to local welfare work. Among them were listed the Penticton Hospital, Boy Scouts, children's lunch fund and playgrounds. Other contributions were "March of Dimes," overseas and Korean parcels at Christmas time, Vancouver Veterans' Hospitals \$12.50 and a boys' home in England \$173.

During the evening the retiring executive of the Legion Ladies' Auxiliary served delicious refreshments to the many present.

### Series Of Papers Read On Provincial W.I. Projects At Monthly Meeting Here

The summarization of objectives and aims within the various departments of Women's Institute activities shared interest with the discussion of numerous local plans at the regular meeting of Penticton W.I. held on Tuesday of last week in the Red Cross Centre.

The local president, Mrs. John Bowen-Colthurst, in presenting the first of the interesting series of papers on W.I. projects, told of the provincial scholarship in Home Economics given at UBC to the daughter of an Institute member.

A comprehensive outline on agriculture was prepared by the W.I. provincial committee convener, Mrs. R. C. Palmer, of Summerland, and read at the meeting by Mrs. Guy F. Brock, also of outstanding interest on economic aspects.

Bringing the series of readings to a conclusion was one by Mrs. W. E. Newton on social welfare work.

Prior to this portion of the meeting several donations to charitable purposes were approved.

Ten dollars was voted sent to the "Milk for Korea" fund following a report read on the sending of six large and four smaller parcels of good used clothing during the past month to the Unitarian Relief Service.

Mrs. C. C. Macdonald will be in charge of sending a parcel to the Institute's adopted girls in England. Contents of the parcels will be two coats, two berets and two dolls. Money realized during the afternoon tea hour will defray postage expenditure.

W.I. representatives were appointed to attend the annual meeting of the local Red Cross Society, the Central Welfare Committee, the Canadian Cancer Society and the meeting to select Penticton's "Good Citizen" for 1952.

Mrs. W. E. Newton was appointed to take charge of the Wednesday afternoon sewing meetings when quilts will be made for relief purposes.

As the Women's Institutes will observe "Health Week" in B.C. during February an endeavor will be made to have a speaker on "Health" at the next meeting of the W.I. scheduled for February 10 in the Red Cross Centre.

### Mrs. Fred Kay Hostess To U.C. Evening Circle

Mrs. Fred Kay, newly elected president of the Evening Circle of the Women's Federation of the Penticton United Church, was hostess at her home on Monday evening to the regular meeting of the organization.

Among those present at the session were others recently chosen as officers of the group Mrs. E. L. Boulbee, vice-president; Mrs. C. E. Roney, secretary and Mrs. John T. Pearson, treasurer.

Interesting discussions at the meeting centred around plans to enlarge the activities of the circle in connection with the Sunday School nursery group. Mrs. Ernest Rands and Mrs. Flora Jordan presented many valuable suggestions concerning the methods of dealing with this fertile group of pre-school age children.

Also discussed during the evening were tentative plans for co-operating with the Women's Federation of the Church in the presenting of the annual fall "Country Fair". The matter under review met with the unanimous approval of the circle members.

Following the adjournment of the meeting refreshments were served by co-hostesses, Mrs. F. J. Lachna and Mrs. Ken MacKenzie.

The next meeting of the Evening Circle will be held on February 2 at the home of Mrs. J. Russell Jordan.

It is announced that the marriage of Marjorie Blanche Snider, daughter of Mrs. George Snider and the late Mr. George Snider, to Mr. Donald Bruce Coulter, son of Mrs. E. L. Coulter of Longview, Wash., and the late Mr. R. S. Coulter, will take place in St. Andrew's Presbyterian Church, Penticton, on January 24th, at 3:00 p.m.

### Miss Marge Snider Honored At Shower

Miss Marge Snider, a bride-elect of this month, was the honored guest at a miscellaneous shower held on Sunday evening at the home of Miss Peggy McLellan.

The many lovely gifts presented to the honoree were contained in gaily decorated pink and white box. A pleasant social evening was concluded by the serving of delicious refreshments.

Present at the party were Mrs. George Snider, Mrs. Earl Snider, Mrs. Lance Webber, Mrs. D. E. Smyth, the Misses Betty Manning, Mary Worsnop, Frances May, Bev. Clarke, Pat Bryan, Dorothy Hall,

Marilyn Updell, Roberta Vincent and the hostess' mother, Mrs. H. D. McLellan.

### Past Matrons Of Eastern Star Hold Banquet

Prior to the annual meeting of the Past Matrons' Club of the Eastern Star, held last evening at the home of Mrs. T. J. Dorman, a banquet on board the S.S. Sicamous was enjoyed by the club's members.

During the business session of the meeting when the elections were held and reports presented Mrs. J. L. Palethorpe was chosen to succeed Mrs. James D. Crawford as president for the ensuing year.

Mrs. H. A. LeRoy was elected to succeed secretary-treasurer, Mrs. A. D. McCune.

Annual reports read indicated a most successful year just concluded. During 1952 the Past Matrons' Club was hostess in November to the International Past Matrons' and Eastern Star Club at a luncheon meeting; other activities of the club were a spring tea and a tea in October in observance of the anniversary of the Eastern Star, which was established in Penticton thirty years ago.

There are two points to remember in using fresh pork: Keep it well refrigerated until it is used, and cook it slowly and thoroughly.

### The Hon. Grote Stirling

The entire Okanagan Valley today mourns the passing of the Hon. Grote Stirling.

The man who won seven straight election victories in the federal constituency of Yale, finally retiring undefeated in undimmed reputation and prestige, is being laid to rest in Kelowna this afternoon.

His death, in some way, seems to suggest the closing of a chapter in the interior's chronicle, and though all unite in paying their respects to him, his removal will be the most keenly felt by those of longer years in this part of B.C.

Mr. Stirling first won this riding in the by-election of 1924, and he continued as the successful representative of the Progressive-Conservative cause until the election of mid-summer in 1945. Then, in October of 1947, because of failing health, he tendered his resignation. It was the measure of the man that, as soon as he found that he could not give the service he desired, he promptly

made way for some successor.

He acted as minister of national defence under Bennett and, at the time of his retirement after nearly a quarter century of continuous representation, his record was exceeded by that of only four others in the house. The Okanagan showed that it was proud of its member.

In the hurly-burly of politics, constantly under the spotlight, Mr. Stirling never found his name crossed by the faintest shadow of reproach. His reputation for integrity could not have been firmer.

He was a gentleman and in his conduct gave a stamp to public affairs in the Okanagan which happily persists.

Such a man, it can be emphasized, did much for his fellows. He gave a lifetime to what he construed to be the highest form of public service and, in performing his duties worthily, with only slight material awards, he yet won the greatest reward of all, the affectionate regard of all who knew him.

### The Liquor Report

The B.C. Liquor Enquiry Commission report comes like a breath of fresh air into a very repulsive atmosphere.

It now seems obvious that many a citizen of the province, disgusted and disheartened by the existing liquor legislation; and its methods and results of enforcement, had about given up all hope. It was a case of throwing up the hands and deciding that nothing could ever be done about it. Now that a new dispensation is looming up, however, there is a sudden realization of what, for so long a time, was a stupid perpetration on the public. Hence the warm welcome for the enquiry's report.

The ornate beer parlor attached, only too often, to a fly-specked hotel making no pretence of catering to a guest's needs apart from his beer-consumption; the insistence on the flow of bottles, bottles, bottles from the liquor stores; the inability of a traveller to get a drink of liquor with his meal; the existence of profit-motive proprietary "clubs" in metropolitan areas under a system that otherwise shut the public out from liquor;—these and many other features

of a system that dominated the province for about three decades were surely designed to create the worst kind of drinking rather than the best. Fortunately, the enquiry report brings all this into proper focus.

The recommendations for a new system, it need hardly be stressed, will issue in no magic solution. No recommendations would please all, in the first place, and these particular suggestions will remain somewhat at the mercy of a public which, for altogether too long, has been educated in the worst possible way.

It is our feeling, though, that the new system will steadily yield a more intelligent, moderate, civilized approach to the use of liquor, making its best results available only after a lapse of some time.

And, in the meantime, the transition period will be best accomplished with the assurance that the authorities will discipline and regulate all new liquor usage outlets with an unrelaxing inspection, something that was more honored in the breach than in actual observance in time past.

### A Splendid Leader

Many able men have been catapulted from the comparative obscurity of a valley orchard into the public eye by the democratic processes of the British Columbia Fruit Growers Association.

It can be said with considerable truth that it is this happy faculty on the part of the growers of being able to choose the right man, for the right place, at the right time, which has, in large measure, contributed to the success and growth of the BCFGA and its affiliated organizations.

This invaluable faculty of the growers to choose unerringly from among their numbers a man whose lead was never more pronounced than last year, when Arthur R. Garrish, Oliver orchardist, was elevated to the presidency of the BCFGR. At the convention last week Mr. Garrish received a vote of confidence in being re-elected, and this time from the floor of the convention, the

first time in the history of the association that its president has been elected in that manner.

These are difficult times and the industry needs a strong man at the helm. In the comparative young Oliver orchardist the growers have found a strong man.

Mr. Garrish's handling of the convention was an expert job. His steel-trap mind, forceful personality, and ready wit served alternately to guide, cajole and drive the delegates through three exhausting days.

It is a big job that Mr. Garrish holds but the question will inevitably arise— is it big enough? Born leaders of men are not found behind every bush. It is quite within the cards that Mr. Garrish will eventually be called upon to greater tasks— that is if the growers will ever let him go.

### Still Advancing

Malcontents who from time to time attempt to disrupt the fruit growers' organization in the Okanagan Valley must, if they were in attendance at the 64th annual BCFGA convention held in Vernon last week, have felt completely routed.

Delegates, representing 3,800 registered growers, demonstrated in word and in action that they stand behind their organizations and that they have confidence in the men they have chosen to run their industry.

It was an encouraging convention. Commonsense thinking dominated the three crowded days of deliberations.

Of profound significance, and doubtless a source of gratification to the convention and the industry in general, was the very evident fact that the thinking of the men spear-pointing the industry closely paralleled that of the growers.

This was demonstrated in the number of resolutions which, before ever they came to the floor, had been answered in the many reports which revealed that the matters the resolutions advocated were being dealt with.

An example of this was the resolution urging investigation into the possibility of finding an outlet for soft fruits in the puree field. The resolution was, however, superfluous. R. P. Walrod, general manager of B.C. Processors Ltd., having previously informed the convention that the industry was in touch with three major baby food manufacturers and that experiments were

being carried on.

The extent of this identical thinking on the top levels and at the grass roots was so great that one delegate, apparently somewhat frustrated at finding so many resolutions anticipated by the various committees and agencies and action being taken, asked if it would be possible to get copies of the annual reports to the BCFGA locals before they prepared their resolutions.

It is doubtful if such a plan could be implemented and if it could, it would be unwise for it would tend to stifle the thinking at the base, from which the organization draws its strength. Nevertheless the suggestion was to our mind one of the highlights of the convention, for it spotlighted this unanimity of thinking and purpose which exists throughout the BCFGA structure. And where such a condition exists, there will be found a well-knit organization, armor-proofed against the borers from within and without, which beset every organization where men band together.

All is not well with the fruit industry, but out of the deliberations of the sixty-fourth annual convention we derived the firm conviction that the growers of the Okanagan Valley and their sturdy organization will withstand the economic blizzard of the day, and by continuing efforts to fulfil what can well be called the industry's slogan of "a better product and better methods of merchandising" will emerge into easier times somewhat scarred by the tempests, but otherwise unscathed.

### Ho Hum

### NEWS FROM

## Victoria

By J. K. Nesbitt

VICTORIA — The Stevens report on liquor has exposed conditions of scandal that have this political capital agog. The report is highly critical of the Liquor Control Board, beer parlors, liquor stores and the financial tie-up between breweries and beer parlors.

Chief recommendation of the Stevens Commission is that there be cocktail lounges in B.C., of a high standard and rigidly supervised. It is this observer's belief that the Government will implement the Stevens report at next month's session of the Legislature, and that we'll have cocktail lounges by July 1.

The report expresses horror at the present beer parlor situation: "It is contended that those who wish a quiet glass of beer should be free to 'drop into a comfortable and decent' place for their refreshment. The existing beer parlor is not this type. Serving of persons who enter beer parlors in an intoxicated condition is quite common. Serving 'drunken, quarrelsome and disorderly' persons in the premises is simply routine, and widespread. Control of minors is apparently left to the licensee without adequate inspection or checking, resulting in serious abuse. The common minimum service is two glasses per customer and not infrequently as many as 15 glasses are served at one time to three men. This is sheer debauchery."

The recommendation here is that: "beer by the glass should be sold in 'public houses' and that as well as beer these houses should sell light foods, such as sandwiches, potato chips, peanuts and soft drinks and juices such as ginger ale, root beer, tomato, orange and grapefruit juices and coffee."

B.C.'s cocktail lounges and public houses aren't going to be the gloomy, if elaborate, caverns they are in many U.S. cities, for the Stevens report says this: "We do not look with favor on, and very definitely recommend against, exotic, dimly lighted, voluptuous type of cocktail bar which creates a delusive impression of opulence and social distinction."

The Commission frowns on the practices of breweries and distilleries loaning money to beer parlors: "In the financial statements filed with the Commission by the breweries and distillers, it was disclosed that these companies, whose chief function is that of production, held indirect control over

numerous hotels and beer parlors. This method of control was held chiefly in the form of guaranteed loans made by the banks. Usually these so-called loans were far in excess of anything warranted by the physical security attached to them. Indeed, it was admitted quite frankly that no other loaning authority would grant such loans."

"In B.C. this financial interest of brewers and distillers in the retail outlets for beer is notoriously prevalent. Where such loans have been made, it invariably follows that the licensee so benefitted sells only the draught beer of his benefactor. There is reason to believe that the financial interest of the brewer or distiller in a license has played no small part during many years past in the phenomenal prices at which these licenses have changed hands."

I have read with much interest the preamble to the report, and I think my readers will be interested in it too: "It would be a simple task to draft legislation for the distribution and sale of alcoholic beverages if all our citizens were self-disciplined and moderate users, but such is not the case, and this is amply supported by the incontrovertible knowledge that all civilized countries find it necessary and desirable to enact restrictive and disciplinary laws for its control."

"Furthermore, it is commonly assumed that alcohol is a stimulant, whereas all scientific authorities assert that alcohol is a drug and a narcotic directly on the nervous system."

"The Commission has been impressed with the complexity of their task in designing a system of distribution which will meet the justifiable demands of the moderate user, and will, at the same time, protect immoderate individuals and society generally from the many undesirable and often very evil effects of excessive use."

"The extent of alcoholism in Canada and in all countries of a similar stage of social development, and the increasing magnitude of the problem created by this disease, which fastens itself on our social fabric like a malignant cancerous growth, has shocked us almost beyond words. We feel vigorous measures must be taken without delay to cope with this lamentable and tragic situation."

It's a good report; every citizen should try and read it in full. They'll find it well worth while.

### From the files of the Penticton Herald

#### TEN YEARS AGO—1943

The Southern Okanagan Branch of the Canadian Legion voiced strong opposition to the employment of Japanese in the Okanagan Valley. Penticton-born Alex Smith was starred in "The Smiling Ghost" showing at the Capitol Theatre. Thirty-six new air cadets were formally inducted into the local unit of Penticton's Air Cadet Corps by O.O. Claude O. Bell. The local fuel situation was "not so good". An outline of fruit refrigeration problems was given at the 64th annual BCFGA convention held here.

#### TWENTY YEARS AGO—1933

Three elk were captured here and turned loose on the Hopewell Road. The head office of the Greyhound Lines Ltd. was moved to Penticton from Kamloops. The Canadian Club heard a lecture on India by Mrs. Millicent MacKinnon. Cost of butter was only 25 cents a pound and bacon cost only 15 cents a pound. "Bird of Paradise", starring Joel McCrea and Dolores Del Rio, was playing at the Empire Theatre. A bald-headed eagle was seen flying low over Main Street.

**MEMBERS OF THE Soviet Ukrainian delegation to the United Nations sink into slumber as they sit through the night-long debate on the demand by Russia's Andrei Gromyko, (right), for the condemnation of the United States for the alleged mass murder of war prisoners on Pongam Island. The weary Ukrainians didn't even come to life when their own chief, Prof. A. M. Baronovsky, spoke. Gromyko's demand was turned down in a pre-dawn vote. The man in front of the Ukrainian delegation, (left), is Gen. Carlos P. Romulo, Philippine delegate.**

## The Member Reports

By O. L. Jones, M.P. for Yale

The opening day of Parliament after the Christmas recess was given over to the private members, or those private members who had placed resolutions on the Order Paper last year.

The first of these, sponsored by Mr. Stanley Knowles of Winnipeg, was to this effect: that the government should give consideration to the advisability of introducing legislation amending the Income Tax Act, or to remove the four percent limitation from the section which makes provision for the deductibility of medical expenses for income tax purposes.

Mr. Knowles sponsored a similar resolution last year, and, strangely enough, it was carried unanimously. In spite of this, the Minister of Finance, Mr. Abbott, did not pay heed to this demand in his budget later on.

This year, after Mr. Knowles had presented a very able case why this exemption should be given, Mr. Abbott promptly followed and proceeded to wind up the debate by moving its adjournment, which, to many of us, was a very undemocratic procedure, as it barred all other speakers from expressing their opinion. Presumably, Mr. Abbott knew that an excellent case could be made for the resolution, and, as usual, when the vote was taken, the Liberal majority carried the day.

However, Mr. Knowles presented a well-reasoned argument for allowing all medical expenses to be

deducted for income tax purposes. If not now, at some later date, the government will be forced to pay heed to this national demand, as the people who are hurt the most are those in the lower income groups who have to bear the high cost of ill health in their family.

**CONSERVATION CONFERENCE**  
The next private resolution was introduced by Mr. H. W. Herridge, Kootenay West, asking the government to consider the advisability of calling a Dominion-Provincial conference on conservation, with a view to the establishment of a national policy on soil, forest and water conservation and land use in Canada.

Mr. Herridge took a dig at the government when he opened his remarks in these words: "I hope no member of the cabinet will rise and use the government majority to forestall further debate as was done on the previous resolution."

Mr. Herridge outlined the need for conservation by giving concrete facts dealing with the present lack of a proper policy. He advocated a long-term conservation program to be inaugurated immediately before any more of our natural resources are lost through erosion, neglect, fire or other causes. He pointed out that if the banks of the Columbia River overflow and damage property in the city of Trail, that city would have recourse only to the Provincial Government.

This parallels the case of Penticton with their river banks problem. This bill would have both provincial and federal government cooperate and develop a suitable plan and responsibility whereby cities such as Penticton with a river bank problem could make direct application for assistance.

This resolution received general support by members of all parties, including the Prime Minister. With the qualified support given by the Prime Minister, I feel that Mr. Herridge's resolution stands an excellent chance of bearing fruit in the near future. In this case, the sittings ended before the vote was taken.

Some of the questions asked the first day were interesting. The government was asked to table a report on the Saskatchewan River Dam project. The Prime Minister pointed out that it would not be ready for presentation until next week, when Mr. Diefenbaker, enquired of the Prime Minister how it became possible for time magazine to have full knowledge of that report. The only answer the Prime Minister could give was that this is not the only instance where leaks have taken place.

The Prime Minister also announced that a site has been chosen for the National Library and an architect to prepare plans for it.

The Minister of National Revenue revealed that they have not reached any decision regarding the abolition of the radio fee.

**CURRIE REPORT**  
Hon. C. M. Currie, Minister of National Defence, spoke at length explaining the Currie Report. He emphasized the trivial and slurred over the larger issue involved, and endeavored to deflect attention from the report by creating a major issue on how the CDF group obtained the original copy, which has since been altered. So anxious is the government to find out how the report reached Mr. M. J. Coldwell, that a special group of RCMP are working hard to find out the individuals responsible.

From my point of view, it does not matter how this report reached the CDF. The main fact is that such a report existed and was changed by members of the department under investigation. The Progressive Conservative party moved an amendment asking that Mr. Currie continue his investigation into other camps and departments of National Defence. We, in the CDF, readily agreed with this, as the present report deals only with one or two camps and items, and Mr. Currie, in his report, indicated that several thousand other items could be investigated.

The publishing of this report has already produced good effect by tightening up discipline and security in the Armed Forces.

L. R. GILLIS

Household Finance Corporation of Canada announces the recent appointment of L. R. Gillis as manager of their office here in Penticton at 48 East Nanaimo avenue. Mr. Gillis has worked for HFC in Victoria and Vancouver and has latterly been assistant manager at 39 McKenzie street in New Westminster.

## Citizens Respond To Kinsmen Polio Fund Appeal Here

Response to the appeal for funds in the Kinsmen's Conquer Polio Campaign, which opened last week in Penticton, has been quite good, according to Kin campaign chairman Paul M. Sharp, although some residents tend to confuse the drive with the recent Crippled Children's March of Dimes campaign.

Mr. Sharp emphasized that the Kin polio fund provides benefits for all victims of polio in British Columbia, both adults and children. This area's 38 serious and dozens of milder case polio victims stricken in the 1952 epidemic have all benefited directly or indirectly from this fund.

The funds collected in the polio campaign are used to provide the equipment for research and treatment of polio and in the rehabilitation of the victims of this crippling disease. Citizens are reminded that a polio victim is never cured until he is rehabilitated and this is the most expensive part of the fight against polio.

Donations help to make victims such as Jack Mitchell, a former resident of this city who was a serious polio victim of 1949, a useful citizen. Mr. Mitchell, through the aid provided by the polio fund, is now gainfully employed as a machinist in a coast shipyard. The local drive is being carried on through letters to residents and through the familiar "Polio Fund" tins placed in business premises throughout the city.

## New Subdivision To Be Re-Zoned

Penticton's new Manor Park subdivision on Main street is to be classed as zone A with the exception of one lot which is to be zone B.

To this council agreed this week, subject to the approval of the town planning commission, at the request of the hospital board. The board's interest in the property is centred on the nurses' home, which, because it will be considered a multiple dwelling, must be in a B zone.

The rest of the lots must be used for single dwellings only.

The property was formerly owned by Hugh Leir and the house standing on that land has been converted for use as a nurses' home.

**School Board Asks Road Improvements**  
A school board recommendation that streets and sidewalks should be improved in order to reduce hazards to students was referred to City Council's public works committee this week.

## Importance Of Accurate Newspaper Circulation Reports To Advertisers Stressed In Address To Kiwanians

Importance of the Audit Bureau of Circulation to the advertising business was stressed by a bureau auditor, George Messerschmidt, in an address to the Penticton Kiwanis Club last Tuesday.

The speaker outlined the operation of the bureau which was set up to give advertisers a true knowledge of the circulation their advertising was getting among readers of newspapers and magazines.

Periodically the ABC sends round its auditors to newspaper and magazine offices to make a careful audit of the copies sold, so that the information can be passed on to advertisers who, in turn, gauge the amount of advertising which will go into any publication.

"Prior to 1914," Mr. Messerschmidt explained, "newspapers and magazines were making fantastic claims to great circulations and in some cases advertisers were throwing money down the drain in advertising in these periodicals."

"At that time a group of advertisers formed the Audit Bureau of Circulation and since that time the bureau has been a reference for space buyers, because they know that circulation reports they are getting are accurate," he said.

The speaker explained that 90 percent of the daily newspapers in Canada are members of the ABC and more and more weeklies are joining.

Of the auditors' part in the ABC system Mr. Messerschmidt stated that no matter how much experience a man had, he was schooled for three months in the rules and regulations of the bureau.

Of the periodic audits carried out on members newspapers the speaker

explained that any infraction of the bureau's rules will be shown in the auditor's report.

"As soon as an audit is completed a report is sent to the advertisers so that they know how many persons are buying the newspaper in which they advertise."

"The audit shows how many papers are sold by subscription or by single copies; whether the papers sold premiums in order to build up circulations and whether many papers are being sold in an area in which the advertiser's customers live, or if many are being sold out of town."

"The ABC sets the circulation basis on which advertising is inserted. Before the bureau started it was, in most cases, sheer guesswork. The bureau is a non profit organization. The costs, 90 percent of which are borne by advertisers, are mostly absorbed by the auditors' wages."

"The first question an advertiser asks before inserting ads into a paper is, 'is this paper a member of the ABC?' And if not, then he will wonder how much he should deduct from the circulation claimed."

"Circulation stated by the ABC is accurate and the advertiser knows that if the bureau states that a magazine or newspaper is going into a number of homes then that number is correct," he concluded.

Bill Holmes has been named Jaycee representative to the Board of Trade committee investigating the possibility of establishing a community chest here.

## One Residence, One Sewer Connection, Mrs. Cudworth Told

Mrs. W. Cudworth, whose house stands on three of the seven 30 foot lots she owns on Chase avenue, left the council chamber on Monday happy in the knowledge that she will not have to pay for a sewer connection to each of the lots on which her house stands.

Mrs. Cudworth genially told council that she was "not here to argue, just to talk and see if we

can't settle this matter."

The matter in question was the sewer bylaw which states that each lot must have a separate connection.

Mrs. Cudworth was informed that only one connection need be installed at her house, but the other four lots must have one each unless subdivided into two or three smaller lots.

## In And AROUND TOWN

Miss Joyce Brock, RN, left Monday for Fresno, California, where she will join the nursing staff of St. Agnes Hospital in that centre.

Mr. and Mrs. H. E. Chalmers left on Friday for the coast to visit in Chilliwack and Vancouver for the next ten days.

Mrs. H. D. Pritchard, Mrs. E. G. Freese, Mrs. Margaret Michie and Miss Joan Appleton were co-hostesses at the home of the latter on Thursday evening, entertaining at a coffee party for the Canadian Club speaker, Dr. William G. Black.

Mr. and Mrs. W. A. Loughheed and sons, Wayne and Bill, arrived home on Saturday evening from a holiday visit south. They spent a week of their three-week vacation in Arizona and visited centres of interest in California.

W. X. Perkins is on a business visit in Vancouver.

Mrs. E. G. McAndrew returned to Vancouver since last Saturday.

Mr. and Mrs. Kenneth Mitchell returned to Trail on Friday after spending the holidays at the home of the latter's parents, Mr. and Mrs. Gordon Harris.

Mr. and Mrs. S. E. Gullik and small daughters, Joan and Sherry, are holidaying for a month in California.

Mrs. Sidney J. Cramer and her sister, Mrs. Hazel Cretney, of Trail, have returned to Penticton from Seattle where they travelled to attend the funeral of their late brother-in-law, Charles LeRoy Gregory. Mrs. Cretney returned to Trail on Monday after spending the week-end here.

Mr. and Mrs. J. M. McKay returned home on Friday from Vancouver where they have been visiting since the first of the year with their daughter, Miss Mary McKay.

Mr. and Mrs. Roy Chapman arrived home on Sunday from a five-weeks' vacation which they spent in Los Angeles, Las Vegas, Mexico City and Vera Cruz on the Gulf of Mexico.

Currently visiting Mrs. Dorothy Walker, Eckhardt Apartments, is her son, ABC 11 Ray Walker, who has completed his two-years' basic training at Cornwallis and is en route to report at Naden.

Mrs. Frank McDonald has returned home after visiting for the past week with her daughters in Vancouver.

After a month's leave spent in Penticton Gunner W. C. "Bill" Dick of the 128th Battery, RCA, left last Thursday for Picton, Ontario, where he is stationed.

Several members of the Penticton Lions' Club are leaving on Friday for Soap Lake, Washington, where they will attend the mid-winter convention of clubs from district 19D, being held on Friday, Saturday and Sunday.

J. C. Hembling, field secretary for the Canadian National Institute for the Blind, left on Monday for Trail and Grand Forks in connection with business of the organization.

Dr. and Mrs. R. K. Gordon have returned home after holidaying for the past month in Winnipeg and Edmonton.

J. D. Murdoch left on Sunday for Toronto to attend the annual meeting of the Life Underwriters' Association as a delegate from the local association.

Howard Logan is a business visit in Vancouver this week.

Mrs. V. O. Wiseman is visiting at Oak Harbour, Washington.

Mrs. J. R. Worthing has returned home from Castlegar where she has been visiting since the first of the year with her son-in-law and daughter, Mr. and Mrs. Robert Maddocks.

R. H. Pollock returned to Penticton on Sunday from Vancouver.

Mrs. M. W. Forster is a guest at the home of her son-in-law and daughter, Mr. and Mrs. R. G. Laidman, following her return to Penticton after spending the past three months in Rossland and Trail.

## Letters To The Editor

Correspondence will be carried by the Herald only when it is accompanied by the writer's name and address.

The Editor,  
Penticton Herald.

**BETTER SPORTSMANSHIP**

With so much gossip, unfair criticism, (often by those people who should know better) it is a shame that some very important actions that would make for better hockey are overlooked.

The newspapers have published, and it has been blared out over the valley radio stations, all about hockey players not doing their best, coaches not being capable, and the hockey fans not giving their moral support.

It has been my experience while travelling through the different towns in the valley, to watch some of our budding hockey players strutting their stuff on the outdoor ponds, and from some of the remarks I have heard from these very young players I believe these people responsible should take more care with their actions and words in the future.

Like the senior games there are times when the decisions are questioned by the players, and it is not nice to hear the young referee tell the players in a very dictatorial attitude, "I am the ref and I can do what I like," or "I don't care what the goal judge says, I am the boss." Needless to say the statements are made by boys who imitate certain referees and call them by name.

I have spoken with many hockey

fans throughout the valley, and all maintain that the games can be controlled better than they have been of late, so how about it folks? Let's all do our best to make the game more sportsmanlike, and at the same time set a good example for these potential hockey-players.

Wm. J. HARRIS,  
595 Haywood street.

May I, through the medium of your paper, contact old time coaches, engineers and trainmen, who used to work for the Kettle Valley Railway. I am interested in old Kettle Valley timetables, time cards, and annual passes.

It is my desire to assemble an historical library and museum of such railroadiana of abandoned and merged railroads of Canada. This file and library will assist in historical research and afford data and reference on extinct properties, such as the Kettle Valley, which helped build Canada, but which are quickly passing from memory; and I wish to preserve all such material and present a picture of railroading long since past. Such timetables soon become rare and scarce and hard to obtain, but are a fountain of valued information to historians, students and rail fans.

I would be very pleased to hear from anyone formerly associated with the Kettle Valley, and having any such items who would care to help me out.

JOHN COOSHIEK,  
4418 Ontario street,  
Vancouver 10.

The Editor,  
The Penticton Herald.  
**SYMPATHY VERSE**  
I hereby submit, pleading poetic license, a word in sympathy with the residents of Huth Avenue, re the moving of the pound.

"There's a canine on your window  
all,  
There's a small goes to the sky,  
You'll remember the good old  
quiet days,  
And wring your hands and sigh,  
The times of quiet are past and gone,  
Every hour of day and night,  
The howls you'll hear from low to high,  
Stands your hair on end in fright,  
When the train comes rolling  
round the bend,  
Its whistle, walling high,  
Then "Man's Best Friends" their  
voices lend,  
And it's enough to make you cry."

P.S. Does anyone want to buy a house in a quiet neighborhood?  
905 Eckhardt Avenue East,  
R. A. ROYLANOE.

Prize winners at the Poplar Grove Community Hall card party held on Saturday evening were Mrs. Tom Hill and Kenneth Davison.

**ROBERT TAYLOR**, as the Saxon knight, Ivanhoe, challenges his Norman foe to a fight for the life of Elizabeth Taylor, the beautiful Rebecca, accused as a witch in "Ivanhoe," M-G-M's spectacular Technicolor version of Sir Walter Scott's immortal novel. Joan Fontaine, George Sanders and Emlyn Williams also star in a cast of thousands in the new film, playing at the Capitol Theatre, Wednesday, Thursday and Friday of next week.

## Canadian Club Hears Address On Citizenship

"Morality based upon brotherhood — that is the foundation for the greatness of a nation," Dr. W. G. Black told members of the Penticton Canadian Club at their dinner meeting in the Hotel Prince Charles last Thursday evening. Liaison officer for the citizenship branch of the federal department of citizenship and immigration and a member of the psychology faculty at the University of British Columbia, Dr. Black spoke on the topic "Some Urgent Problems of Citizenship."

His remarks were addressed particularly to the members of the "New Canadian" night school class, who were special guests at the meeting, and he explained to them the steps that must be taken before they can become Canadian citizens in the full sense of the word. He referred to their attendance at the meeting as "sitting around the table of friendship" and expressed gratification at what the citizens of Penticton and the members of the Canadian Club are doing towards making the newcomers feel welcome in a "strange land."

Throughout his entire address, Dr. Black urged citizens to offer a helping hand to these newcomers and also to be tolerant and understanding of racial and religious minority groups. Explaining his work with the citizenship branch, Dr. Black stated that it falls into three general categories — aid to newcomers, or immigrants, to this country, the assimilation of minority groups and adult education and citizenship in general.

Referring to the first group, Dr. Black said, "All we can do to help the newcomers is as much to our advantage as it is to theirs. We must not pamper these future citizens, but neither must we allow them to make unnecessary mistakes. We are a young and growing country," he said, declaring that we can go on accepting a large number of immigrants for many years.

Pointing out that an increase in population will strengthen our economy, he warned, however, that greatness cannot be measured in quantity, but rather in quality and, for this reason, it is important that newcomers to the country are assimilated as quickly as possible and become truly Canadian.

He emphasized that the first steps to be taken in making the newcomers welcome concern provision of their immediate physical needs of housing and employment, and also the basic information on public services and resources. The speaker advocated that communities form special citizenship committees which would publicize such information. Dr. Black emphasized the importance of the immigrants learning the English language as soon as possible and commended Reg Cox for the work he is doing in teaching the local newcomers the language and the fundamentals of our way of life at his night school classes.

**PROVINCE RESPONSIBLE**  
The educational program for newcomers is mainly the responsibility of the provincial governments, he declared, but stated that cooperation of the municipal school boards is essential. The federal government's part in the program is in the provision of free booklets and education pamphlets. This program includes not only the teaching of English, but also the main features of our democracy and our democratic institutions as a preparation for full citizenship.

Most important of all, however, the speaker continued, is that we offer the newcomers

## BCFGA

(Continued from Page 1)  
ed "as your minister of agriculture, I believe that orderly marketing is essential to the welfare of agriculture in this country."

This allayed fears of the growers, as summed up in a resolution from Osoyoos and unanimously approved, which put the BCFGA on record as opposing any changes in the present laws governing the selling and transporting of fruit as proposed in a resolution passed at the post-election convention of the B.C. Social Credit Association.

Growers' determination to maintain the orderly marketing system was also strongly evidenced in their rejection of a vigorous Creston local attack upon the control methods adopted by the B.C. Fruit Board.

Mr. Kierman's comments at the banquet and the debate on the Creston resolution are reported elsewhere in this issue.

Apart from somewhat acrimonious debate on the subject of mar-

## Water Service For New Pound Approved

Authority to spend \$1,000 to supply domestic water to the new city pound at the corner of Fairview road and Huth avenue was given by City Council this week.

The service entails laying 180 feet of six inch main from the corner of Huth avenue and also providing a fire hydrant to give fire protection to the residents in that area.

At present the nearest hydrant to the corner of Huth avenue and Fairview road is 400 feet away.

Penticton's KVA demand for the week ending January 17 remains unchanged at 4512.

ketting controls, which led a Creston delegate to hint that growers in that area might ask to be separated from the tree fruits area unless controls were relaxed, the convention pursued an even course, questioning being largely a probing by the delegates to discover how the present marketing difficulties could be overcome.

Emphasis this year was on the problems of the soft fruit grower, reflecting the bad year of 1952.

# Just look at the value you get in SAFEWAY STEAKS

Steak value should be measured two ways: First, by quality of the meat; second, by the proportion of good eating meat on the cut. On both counts you'll find Safeway steaks unsurpassed. Our steaks are cut from top grades of beef only—meat which is sure to cook up tender and juicy. Then we trim away parts that don't rightly belong on a good steak—excess bone and fat, sections of tough meat. (See diagram at right.) The result is a steak which offers a maximum of good eating for your money. We guarantee it.

## SPARE RIBS

A Real Treat Baked With Dressing

Pound ..... **29¢**

You'll want lots of Christmas candy for gifts and guests, and here are three kinds that will please any sweet tooth—Honeyed Orange Peel, Dates and Nuts stuffed with Fondant, and Orange Marshmallows. Try them now, then make them later to tuck into gift packages.

### Honeyed Orange Peel

Remove the peel from 3 oranges. Cover this peel with water. Add 1/2 tsp. salt. Boil 1/2 hour. Drain. Cover again with water. Boil until tender. Drain. Cut peel in strips. Bring 1/2 cup sugar, 1/2 cup honey and 1/2 cup water to boil. Cook peel in this gently until clear. Cool in syrup several hours. Reheat. Drain. Spread out to dry. Roll in granulated sugar, if desired.

### Orange Marshmallows

Two tbsp. unflavored gelatin, 1 cup orange juice, 2 cups sugar, 1 egg white, 1 tsp. grated orange peel, powdered sugar.

Soak the gelatin in 1/2 cup of the orange juice. Add the other 1/2 cup orange juice to sugar and boil in hard ball stage (233 degrees F.). Stir this into the soaked gelatin and beat until dissolved. Beat egg white until stiff. Gradually beat the gelatin mixture and orange peel into egg white and continue beating until cool and stiff. Pour into a square pan that has been buttered and dusted well with powdered sugar. When firm cut into squares with a sharp, hot knife. Roll in powdered sugar. Keep in a covered container in refrigerator to retain moisture.

## Orderly Marketing Is Essential, Kiernan Tells BCFGA Parley

VERNON — "As your minister of agriculture, I believe that orderly marketing is essential to the welfare of agriculture in this country," said Hon. Kenneth Kiernan, addressing the BCFGA convention banquet, hosted by the Vernon Board of Trade in the Hotel Allison Wednesday of last week.

Mr. Kiernan was referring to a discussion on resolution number 51, which had been discussed on the floor of the convention earlier in the day.

The resolution, sponsored by Osoyoos, called attention to press reports of a political convention held last fall at the Coast. The report stated that "present laws governing the selling and transportation (of fruit and vegetables) should be reviewed and changed to permit the growers freedom in disposing of their products."

"Your discussion indicated to me that you, as growers, are aware of the problem of public relations," Mr. Kiernan continued. "Perhaps you were unduly alarmed by the passage in Vancouver last fall (not unanimously) of a resolution requesting that activities taking place under the Act be investigated."

"The public, as a whole, is not too clear on the regulations, and it seems you do not only to convince your own growers that they must comply with certain regulations, but to convince the public those regulations are not opposed to their freedom and liberty."

Mr. Kiernan added that "I, as your minister, do not believe in the 'old dog eat dog' policy of distribution. But I do believe that orderly marketing is essential. This government has no intention of throwing the Natural Products Marketing Act out of the window; but we, as a government, reserve the right to enquire into the Act."

"I have required that an examination be made of such activities," Mr. Kiernan declared. "The crux lies on the primary producer, he said. 'If the consumer has an understanding of what you are trying to do, he will co-operate,' Mr. Kiernan said, 'deploring incidents in the newspapers which are exaggerated, and which could get the consumer's back up.'"

"We will see," continued the minister, speaking for his government, "that at all times agriculture gets a square deal. We will work impartially for all parts of the economy of this province."

"We will do our best. That is all any man can do." "During the war," Mr. Kiernan went on, "we developed some rather sloppy methods of production. We were, perhaps, a little careless. But that phase has passed." He declared that "we must concentrate on economy, which also applies in our government."

Mr. Kiernan said he had enquired of wholesalers and jobbers why they imported produce into B.C. from outside, when those products were grown in this province. They had, in effect, replied that they could not obtain here the quality of pack they required, then they must obtain it elsewhere.

When quality and pack of B.C. produce was equal to that obtainable elsewhere, then products of this province would be given the edge, Mr. Kiernan declared.

"We want a square deal. As minister of agriculture, I will do all I possibly can to see you get it," he said. Mr. Kiernan said he was "most impressed" with the way A. R. Garish handled the convention, which brought "hills of 'hear, hear,' and loud applause from the 300 assembled delegates and visitors. The minister said Premier W. A. G. Bennett was sorry not to be present at the convention, but "the business of the province is too keep-

## First Services In New Church Here March 9

Extension and renovation of the Church of the Nazarine on Eckhardt avenue is almost completed and the first services in the new building will be conducted March 22 by Dr. Edward Lawlor, the church group's district superintendent for Western Canada.

The church, which will now hold a congregation of 225 instead of 60 as it originally did, has been largely built by contributions of time and money by the parishioners.

The Reverend Verel E. Williams estimates that about \$7,500 have been contributed toward the construction.

According to a report on the Church of the Nazarine throughout the world membership climbed to 250,000, in 1952 a gain of 3.3 per cent. The report also lists 3,888 established churches in the United States, Canada, and the British Isles, 151 of these being organized during the year.

The Sunday school organization showed even larger gains, reporting 521,030 enrolled. This is an increase of 4.3 per cent over last year and more than twice as many as listed for church membership.

The church now has 262 missionaries and 950 native workers in 25 foreign fields. Fifty-two of these missionaries were commissioned this past year, the largest number ever to be appointed in a single year.

A. S. Bella's offer to pay \$300 towards street and water services to property above Garvey's Road where he plans to build, was referred to the appropriate departments by City Council this week.

ing him more than busy, and he sends to you his best wishes."

Mr. Kiernan was introduced by A. K. Loyd, president of B.C. Tree Fruits Ltd., who told the meeting that the minister had been a farmer, first on the prairie, and later in B.C., and at one time in the Okanagan.

### Claim For Lost Time Rejected By Council

I. Kanza told by City Council on Monday that his claim for lost time due to flooding on his orchard could not be entertained, promised to take "further action" before he left the council chamber.

Mr. Kanza's claim was made recently when flooding from a city water service ran into his orchard and, according to Mr. Kanza, caused his tractor to become bogged down. Cost of time lost was estimated by Mr. Kanza at \$8.

Alderman W. D. Haddleton, commenting on the report, submitted by the engineer, declared that he felt that no damage had been done and that the city could not accept the claim.

**CHILLY NEW YEAR** — New Year's day was fine for citizens bent on greeting calls, but for this squirrel snapped on the mountain, it was a bit chilly, thank you! There's a bright side to the story, however, for his dinner was brought to him by thoughtful citizens.

## Harold Mitchell Installed President Of Kiwanis Club

"We have worked on more major projects during last year than in any other year in the club's history... 1952 has been a good year for the Kiwanis Club."

Thus R. L. "Dick" Sharp, retiring president of the Penticton Kiwanis Club, summed up the year's activities in his annual report, before stepping down in favor of his successor, Harold A. Mitchell, at the annual installation dinner last Saturday in the Hotel Prince Charles.

Conducting the installation ceremonies was Joe Allen, of Twisp, Washington, lieutenant-governor for Kiwanis division five.

**MAN OF THE YEAR** — Other officers installed were Lyman Seney and G. J. "Gliss" Winter, vice-presidents; R. A. "Bob" Patterson, treasurer; Dr. J. H. Stapleton, secretary and directors George Arsenault, Will Dupont, Howard Logan, Hugh Lynch, Art Marshall, Ted Moore and Harold Myers.

In his report Mr. Sharp declared that the Kiwanis had set out to raise \$1000 with which to finance the club's activities including boys' and girls' work. The target was reached due to the efforts of the activities committee under the chairmanship of Mr. Winter, whom Mr. Sharp

### Presentations At Club Installation

Presentations were made at the Kiwanis installation banquet last Saturday to two persons who have served the Kiwanians well.

First presentation was made to Miss Joan Nagle by G. J. Winter, and the second to Jim Murdoch by Dick Sharp.

Miss Nagle's gift, a set of coffee spoons, was in recognition of her assistance to the club in its presentation of the ice show here last month, in which the Penticton Peach Queen starred.

Mr. Murdoch's award was a pin to mark 25 years' membership in the Kiwanis, many of those years with the Brandon, Manitoba, club. Mr. Murdoch was secretary to the Penticton club for the past year.

## Canadians Move Into Third Spot; Edge Kelowna 6-5

**VERNON** — Those unpredictable Canadians did it again last night. After taking a 6-4 shellacking from Kelowna on Saturday at the Orchard City, they played host to the Packers at the Vernon arena last night and returned the compliment, edging the Kelowna crew 6-5 to move into third place in the OSAHL standings.

The Canucks started hustling with the opening whistle and kept hustling. Score at the end of the first period was 1-1 and it was 3-3 at the end of the middle frame. Two third period goals by Bill Tarnow and a singleton by Bob Ballance gave the battling Canucks all the edge they needed.

Jim Middleton tallied twice for Kelowna in the final stanza and once in the middle session for a hat trick.

### SUMMARY

First period — Kelowna, 1, Hergeheim (Stein) 10:11; Vernon, 2, Holmes (Lane) 12:31. Penalties — Kuly, McLennan.

Second period — Vernon, 3, McKay (Jakes, Lucchini) 6:34; Kelowna, 4, Roche (Fraser) 12:25; Vernon, 5, Harms (Jakes, Lucchini) 12:48; Kelowna, 6, Middleton (Raymond) 15:41. Penalties — McLennan, Lane.

Third period — Vernon, 7, Tarnow (unassisted) 3:15; Vernon, 8, Ballance (Holmes, Tarnow) 6:35; Kelowna, 9, Middleton (unassisted) 8:08; Vernon, 10, Tarnow (Ballance) 11:40; Kelowna, 11, Middleton (K. Amundrud) 18:52. Penalties — Hanson.

**NEW MUNICIPAL HALL** — A suggestion that the city of Penticton should place a congratulatory advertisement in the Summerland Review on the occasion of the opening of the new municipal hall was referred to the publicity committee with power to act. Cost of the ad is \$15.

George Smith will be the guest speaker at the Jaycees mixed dinner meeting tomorrow evening at the Sleamours.

## Empty Hall Meant Rest For Fisheries Minister

"I don't blame people for not coming over. I wouldn't want to hear the same man speak twice in one evening, no matter who he was."

In this good humored fashion, the Hon. James Sinclair, federal minister of fisheries, commented on the almost empty hall at Oliver where he was due to address a public meeting immediately following his address to the Board of Trade at Oliver last Wednesday.

At 8 p.m., only about a dozen persons, including Maurice Finnelly, Oscar Matson, a Herald reporter, H. Ross of Okanagan Falls and Mr. Sinclair and his two companions, were present.

Obviously tired after his recent tour, on which he spoke three times in Vernon, Tuesday, and twice in Kelowna, Wednesday, Mr. Sinclair did not seem too disappointed at the low reception and he appeared somewhat thankful for the opportunity to rest before making

## New Executive For Legion Will Be Elected Next Month

Penticton branch 40 of the Canadian Legion will elect and install new officers for 1953 on Monday, February 2. Nominations will be closed today.

This was decided at the branch's annual meeting held Monday, when retiring president P. F. Erout presented his report for the past year.

In his report Mr. Erout paid special tribute to the members of the Ladies' Auxiliary for their hard work during the year.

In 1952 the local branch sponsored a midget hockey team, the Legion Pipe Band, gave assistance to old age pensioners and regularly visited the sick in the local hospital.

The branch cooperated with the Peach Festival Association and the Arthritis and Rheumatism Society and played its part in Education Week, Mr. Erout reported.

Business conducted at Monday's meeting included a discussion of a Community Chest here and it was agreed that the Legion should endorse the proposed Community Chest plan for Penticton. The plan, as suggested, would substitute one concerted drive for charity for a number of individual efforts but it would not embrace the veterans' wreath and poppy sales campaigns.

During 1952 the Canadian Pacific Railway spent \$62,000,000 for new equipment.

CITY OF PENTICTON

## WANTED

Young man to start as Junior Clerk in the Penticton City Hall. Permanent position offered. An opportunity to make Municipal Administration a career. Only applicants willing to accept a moderate starting salary should apply in own hand writing.

For further particulars apply to the City Clerk, City Hall, Penticton, B.C.

## Orchard Demonstrations STEEL SQUIRREL

**DODGE** coronet V8

The 1953 Dodge Coronet V-8 is styled for action... more streamlined... more compact... yet with more passenger and trunk room than ever. It's designed for action to provide a road-hugging, curve-holding ride, now steering ease, wonderful maneuverability. It's powered for action with a new 140 h.p. V-8 engine of the famous "dome-shaped" design (as described below) — that gives astonishing pick-up and smooth, sustained speed.

featuring the sensational new 140 h.p. red ram V8 engine

This new V-8 engine brings you the triple power advantages of "dome-shaped" combustion chamber... short stroke design... high lift lateral valves—a design universally recognized as the ideal for power and economy. It provides more power per cubic inch displacement than any other mass-produced engine... more fuel energy goes into power, less is wasted in heat and friction.

Gyro-Matic transmission is standard equipment—giving you no-chill driving at its best. Gyro-Torque transmission — for extra bursts of speed from "get-away" to 45 m.p.h.—is available at extra cost.

Dress up inexpensive fillets of fish with this different sauce to turn it into a company main course. The sauce is made with a base of lemon juice flavored with ginger and soy sauce. Marinate the fillets in it before cooking, then use the rest of the sauce while they are baking.

#### Oriental Fish

One half cup fresh lemon juice, 4 tsp. soy sauce, 1/4 tsp. ginger, 2 tbsp. brown sugar, 3 tbsp. oil. Mix ingredients together, shake well. Pour over 1 pound fish. Marinate for an hour—if you like a stronger flavor leave the fish in it.

## Study Of Soft Fruits Processing Intensified Walrod Tells Growers

VERNON — Processing of soft fruits by other than conventional canning methods is being studied by the industry subsidiary, B.C. Fruit Processors Ltd., and the B.C. Fruit Growers' Association, evidently wishes a speed-up in experiments.

Real difficulties exist, warned R. P. Walrod, general manager of the processors, but in view of existing surplus conditions for soft fruits, studies previously undertaken are being extended and intensified.

Hitherto, processors have been concerned solely with surplus apples, manufacturing juices and other products. Financing of operations is entirely from apple pools. Oliver delegation sparked discussion in a resolution asking that, "if economical," processors "be equipped to dehydrate or process (not can) any soft fruits of a standard marketable grade, that cannot be sold on the fresh fruit market, as a salvage deal for the industry, to prevent a loss by dumping of good marketable fruit. The inclusion of cull fruit in this proposal is not recommended and the financing is to be from proceeds of pools of the fruit varieties participating."

John H. Thorpe recalled the convention's attention to the operation undertaken last year whereby a quantity of apricots for which no outlet existed on the fresh market were converted into puree by a coast canner. He suggested that a start had been made, but that the industry itself should have facilities at least for making puree which might be sold in bulk to baby food manufacturers.

Mr. Walrod assured the meeting that the processors are already in contact with three of the four leading baby food manufacturers. Processors "do not at present know enough to draw definite conclusions" about freezing of soft fruits, he said. Some items are gaining in popularity, aided by frozen food plans on which the consumer has not yet passed final judgement. "Unfortunately, frozen apricots and peaches are running contrary to the trend" in that they are not being accepted by the markets. In the United States, frozen prunes are presently a drug on the market.

Some years ago, Ted Atkinson, at the Summerland Experimental Station, did valuable work on drying of prunes and apricots. Mr. Walrod added that from the "sum total of our information it appears questionable" that soft fruits can be successfully dried in these latitudes.

President A. G. DesBrisay, of Penticton, gave a general review of the affairs of the company during the last year, in presenting his annual report. Satisfaction was found, he said, in the fact that though volume dropped to little more than half of the previous year's total owing to a short crop, returns to growers were not only maintained but increased.

"A second disadvantage of a short year to us at this time is in the disruption of our program for market expansion. It becomes most important to build our capacity well in advance of the time when the Processors will be called upon to utilize increasing quantities of apples," he said.

"To this end, we have assessed our position by analyzing markets in Western Canada and elsewhere, and have set an objective which, when reached, should ensure an outlet for any foreseeable tonnage of fruit."

"Our progress in this regard is dependent upon relatively constant and increasing volumes of apples being made available to us."

Chief outlet at the present time for surplus apples is in juice. Mr. DesBrisay declared. Surveys indicate that any substantial increase in consumption of juice must come at the expense of other fruit juices.

"This has already been demonstrated on a wide scale in B.C. A study of distribution figures across Western Canada shows a direct relationship between volume consumption and the retail price. The obvious tactical first move in securing greater distribution is to concentrate on raising the per capita consumption in the prairie

provinces to levels already reached in B.C. In carrying out this plan a policy was instituted at the beginning of this season equalizing prices to all wholesale points, Winnipeg and west," he said.

Progress was achieved during the year in carrying out a long range plan of capital expansion to secure utmost efficiency. Some new equipment was purchased but costs were held to a minimum by interchange and transfer of items as between the various operations.

Throw rugs can cause dangerous accidents, but there is one effective way to remove the hazard of rugs sliding on a polished floor. Just sew three rubber jar rings to each corner of the rug. This forms a set of suction rings which hold the rug in place.

### Permission To Hold Raffles Is Granted

Permission to organize raffles providing that all provisions of the law are observed was granted by council this week to the Registered Nurses' Association and the Junior Hospital Auxiliary.

The nurses' raffle will be held at the annual St. Valentine's Day dance, February 14, and the hospital auxiliary draw will be made March 1.

### P-T-A News

As we contemplate the drawings of the very youngest member of the family, most of us find ourselves reflecting that if the artistic talents of young children were equal to their enthusiasm, the world would abound in young Raphaels, Rembrandts and Renoirs.

Some of these early "creations" have something in common with certain modern abstracts, in that we feel a strong desire to ask, "what is it?"

Some young artists, fortunately, do indeed live up to their early promise, as can be seen by the excellent posters entered in the annual poster contest sponsored by the B.C. Provincial Education Week committee.

This year the contest will arouse special interest in Penticton, as posters are to be entered by some of the promising art students of our high school.

In connection with a preliminary local contest, sponsored by a committee drawn from the staff of the Penticton schools, two prizes are being awarded, one by the South Okanagan Teachers' Association, the other by the Penticton P-T-A.

A very high standard has been reached by some of our local students; examples of their work are to be seen in the four excellent panel paintings now hung in the school cafeteria. These paintings, executed in poster paint, depict the four seasons of the year. Spring, by Doris Sharein, Summer by Margaret Keefer, Autumn by Roberta Taylor and Winter by Margaret Keefer.

Good luck to Penticton contestants!

Whales do not have a sense of smell.

THESE TWO CANADIAN nuns, the last of five accused in the Canton "orphanage murder case," reached Hong Kong recently, after their "banishment" from China. At left is Sister Superior Antoinette Couvrette, 38, of Joliette, Que., and at right, Sister Germaine Gravel, 43, of Three Rivers, Que. The two sisters had been sentenced to five years at mental labor, but were released and "banished" from China after serving about one year.

### Responsibilities And Duties Of Fruit Industry Governing Bodies Defined By Planning Committee

Defining the responsibilities and duties of the various governing bodies in the fruit industry, and investigation of the suggestion of convention delegate representation on the basis of acreage were the major topics included in the report of the planning committee presented at the annual BCFGA convention in Vernon last week.

Acting on the planning committee, the report of which follows in full, were J. Snowsell, chairman, J. B. Kidston, A. W. Gray, E. C. Nyuens and H. C. McAlpine.

The delegates to the 1952 annual convention requested the planning committee to make some revision to the existing form of "local delegate representation." It was suggested that delegate representation on an acreage basis would be a fair way of controlling representation which otherwise, due to the increase in tree fruit acreage and due to the sub-division of larger holdings might become unwieldy. In considering the matter the planning committee took the basis of representation as one delegate to 500 acres of orchard, using as their basis the 1952 Provincial Government Horticulturists Survey (except in the Kootenay districts where the most recent survey was in 1950). It appeared that this would control the number of delegates to conventions at about 80 and yet cause insufficient changes in any one local representation, to cause concern.

After considering this matter the planning committee concluded that to leave the definition of a grower as defined in the B.C. Marketing Scheme and to make anybody therein defined as a "registered grower" automatically a member of the British Columbia Fruit Growers' Association, could not be improved upon. The possibility of widening the definition in the scheme to include all growers operating one or more acres of fully planted orchard, rather than to imply the necessity of this acre being producing should be considered.

It is recommended that a check be made by the incoming fruit board to bring their "member" lists more complete and up-to-date. It is suggested that local secretaries of the locals be used as the medium for this review.

DEFINES RESPONSIBILITIES  
The planning committee has been requested to define the duties and responsibilities of the various branches of our organization. To do this in detail we regard as impractical. In a very general sense it could be stated:

(1) The responsibility of the directors of the B.C. Fruit Processors Limited is for the efficient operation of all industry-owned processing plants and for the disposal of such fruit as is diverted to their plants to the greatest possible advantage of the industry as a whole; to explore all possible avenues of development to the industry and to recommend to district councils and general conventions any possible

extensions to this industry that may from time to time, in the opinion of the directors, be advantageous to the welfare of the fruit growers at large. This extension would entail continuous research into the development of new processed products from all types of tree fruits and the exploration of all possible markets for these products.

(2) That the responsibility of the Board of Governors of B.C. Tree Fruits Limited is the efficient operation of B.C. Tree Fruits and the efficiency of such subsidiary companies as may be placed under its jurisdiction; the disposal of the tree fruit crop in this area to the best advantage of the growers as a whole.

It is further recommended that the governors take under active and continuous scrutiny reports on the condition of our fruit on all markets, with a view to ascertaining the reason for poor quality fruit appearing on the market and to taking positive steps to correct this situation. The Board of Governors will exercise its authority to make such packing regulations in advance or during the season as will result in the crop being marketed in the best interests of the growers, and the board will be responsible for such regulations.

(3) That the responsibility of the executive, in addition to those duties enumerated in the by-laws, is to maintain the greatest possible coordination, within the whole industry.

It is hoped with the increased responsibilities of district councils, that with those duties enumerated in the by-laws, they will serve to distribute far more information to the locals regarding the problems of selling, processing and general marketing of our crop than has been customary.

For this reason it is strongly recommended that all delegates, executive members, members of the board of governors and all directors of B.C. Fruit Processors Limited receive official notice to attend their district council meetings. Information received at district council meetings should be passed on to their locals by the local delegates. For this reason it is recommended that district council meetings be held at least six times a year and oftener when

### Bethel Tabernacle Reports Successful Sunday School Year

All departments of the Bethel Tabernacle Sunday School reported a successful year at the annual meeting of the school which was held January 13.

W. W. Woodbridge, secretary-treasurer, told the group that the Sunday School, which has 304 members enrolled in the Sunday School and 54 on the Cradle Roll, had contributed \$837 to Missions in 1952.

He said that not only had the Sunday School prospered financially, but also attendance had been maintained at a high level, there being, on the average, 22 more in attendance per Sunday than in 1951. This is possibly due to the operation of two Sunday School buses. Seventy-two new scholars were enrolled in 1952.

The activities of the Sunday School have been many and varied during the past year. Special events were the bi-annual promotional day exercises at which children were promoted to new classes; the Mother's Day program; a Cradle Roll party and the Christmas program. More than 400 attended the annual picnic which was held in June.

The 22 class Sunday School is staffed by capable teachers, who not only devote much time and effort to their classes on Sunday, but also devote time to an extensive visiting program carried on during the week. Children attending the Sunday School are assured of personal attention as well as excellent Biblical teaching.

### Name New Officers For Municipalities Ass'n Next Month

A letter reminding City Council that the Okanagan Valley Municipalities' Association will elect new officers for 1953 at the annual meeting to be held February 18 at Kelowna was tabled by council this week until February 9.

The letter asked that information regarding the number of delegates should be forwarded before February 14, so that reservations for hotel accommodation can be made.

at all necessary. It may be stated that the idea of primary producers being enabled, by government statute, to set up their own agencies for selling their produce is something new in democratic development. This achievement will thrive in our organization, as in other democratic societies, only by the tolerance, intelligence and general interest of all its members. So far as the organized fruit growers of British Columbia are concerned the establishment of our own selling agency has enabled us to control the speculation that formerly existed in our industry and thus, without doubt, has brought to the producers a larger amount of prosperity than otherwise would have existed.

The planning committee has tried to place the B.C. Fruit Growers' Association set-up as closely as possible to its grower members. Therefore, the individual grower's information is limited only by the degree of interest he takes in his own organization.

With the submission of this report to the 1953 Annual British Columbia Fruit Growers' Association Convention the planning committee feels it has completed the duties assigned to it by the executive and thus feels it should be disbanded.

By SID GODBER

I can't go along much more than half way with Dave Roegge's appeal—to get behind the team, it's your team and so on. — but I've just got to take up the cudgels on behalf of the fans. There is nothing wrong with the fans that a couple of good wins won't cure. At the moment they're bewildered and talking around in circles. They know there is something wrong with the V's. Why shouldn't they get into a huddle and express their views of what's wrong? After all it isn't the fans who have let the team down — far from it — it's the other way round.

The record proves my point. We started the season off with a bang, then hit the skids. The other clubs in the league, without any substantial changes in the lineups which faced the V's during the first half of the season, are now beating them with a too monotonous regularity.

It's not so much the losing that is worrying the fans — it's the manner of the losing. They feel that the team isn't giving its all. Unfortunately it's hard to separate the sheep from the goats and the criticism is spread like a blanket over the entire team.

I'll go along with Dave in agreeing that this builds up to a tremendous pressure on the players. That's the reason they're playing better away from home, but it still doesn't alter the fact that the trouble is rooted in the V's themselves. I repeat there's nothing wrong with the fans that a couple of wins won't cure. In fact the V's don't have to win, they just have to go on the ice and every man jack play his heart out and they'll have the fans solidly behind them.

In any event it would be a sad day for hockey in Penticton if the fans stopped talking. Then we'd have to have give-aways like the towns up the valley to get them into the rink.

There are, at a conservative estimate, 2,000 dyed-in-the-wool hockey fans in this town — that means there are 2,000 coaches and that's the way it will be as long as there's a hockey team worth getting excited about. And the Penticton V's in this season of 1952-53 are worth getting excited about.

The foregoing doesn't mean I condone this snivelling stuff of accepting and spreading vicious rumors. Nor can I understand, or stomach, baiting of players who are obviously out there to win.

A case in point is the Warwick line. Some fans were positively drooling on Friday over the fact that most of the goals were scored against the Warwick line. So, let's take the first period. The first goal came from a pass out from the corner (the man was covered) the puck slipped in front of the goal and it was just a quick take the angle McLelland's pads struck it deflected it in. The next two goals came while the V's were short-handed, the fourth when Don Johnston toppled backward and Millard got the puck as a gift. Where were the Warwick's most of this time — up digging for goals against an unbeatable Gordon.

Must admit I wasn't very proud of our hockey fans on Friday night. It's one thing to chatter over a cup of coffee, it's quite another to turn on a player, who throughout the season, has played a good, honest game just because he wasn't up to his usual standard. I'm speaking, of course, of Ivan McLelland. I didn't think he was sharp on Friday, but even that is very debatable with the defence he had and with the sharpest, sharpshooters of the valley league to contend with. The ride the fans gave McLelland was uncalled for, unjustified and a rotten piece of business. And it might be noted that McLelland's average puts him only second to Kamloops' Gordon.

Let's all these things on I still think I'm going to get a new hat out of Backer, Becker, Norman, Taylor. We're down, but a long way from being out. There's still a mathematical chance that the V's could finish up in top place, but it's now so highly improbable as not to be worth sweating about. That second place is still open to us. That's what the V's should set their sights on. Could mean an extra playoff game on home ice and, apart from its advantages, I would think that the V's dearest wish from now on will be to plaster the Packers. After the bunkum and dirt Kelowna has spilled over last Wednesday's game there is nothing will please Penticton more than to see the V's top the Packers in the league standings and then take them in the playoffs and I still think they can and will.

"Vicious, butchers, monsters, are some of the terms applied to the Penticton V's in print and in letters.

I've got a stack of abusive letters from Kelowna — which incidentally I'm not printing — all calling down the V's. Storm centre seems to be over Durban breaking his wrist. Kelowna is pointing its finger at Grant Warwick. I didn't see the game but I have done a lot of checking with Penticton fans who were at the game. I talked to men who are not fanatics, and who don't like dirty play any more than I do. From them I got the same account as I got from Grant Warwick and later from coach Bill Carre. Durban tried fending off a body check with a crossed stick, Warwick met it with his shoulder and Durban, with his wrists bent, suffered most.

I don't think there is a fan in Penticton who doesn't regret the accident, but this talk of slashing from Kelowna is just bunkum. You no doubt it was a rough game, but the Packers evidently can dish it out better than they take it.

And where were the referees when this alleged mayhem was going on? Who got the most penalties? Why wasn't this blood and thunder reflected in Jim Pantan's radio broadcast?

Looks to me as if the whole thing was cooked up to attract the fans to the arena for the next game. They have to do something up there. They can't get support for their team without cash prizes — maybe they think building up a hatred will be cheaper.

Penticton fans have contributed a lot of dollars to the Kelowna hockey club — it wouldn't be more than just retaliation if that steady stream of dollars dried up.

Going to have to study anatomy. If I went around patting females of the species on what Arnold Smith calls the knee I'd get my face slapped. Nevertheless that kneeling penalty called Friday on Willie Schmidt paved the way for a couple of goals for the Elks. . . boy who deserved all the stars Friday night was George McAvoy. He played a whole of a game . . . understand that, Bill Lemm and Art Fisher are happy now they have some help with the kids. . . Just got it official, Big Jim Fleming will be out for three weeks, possibly more. Same type of injury suffered by Bill Warwick, knee ligation. . . That's a tough one for Coach Carre at this stage of the game. . . Can't understand how Vernon's Tom Stecyk got hurt. . . game was with Kelowna and the Packers don't play rough. . . wonder if the OSAHL executive would consider trying to exchange referees with the Kootenay league for the playoffs. . . It would at least ensure impartiality for the clubs of both leagues. . . Vernon here again Friday. I like that Vernon team. All get up and go and not letted until the last whistle. Think they're in for a beating though.

Here's something else that I hope will get a lot of attention. Are we going to lose Les Edwards to the community? This popular figure in our sports life may be on his way to Calgary by the time this appears in print, though it was my understanding that he was going to stay around Penticton at least until the end of the month, hoping to get lined up in a new business of his own, or in some reasonable employment. It seems he's received a nice offer from Calgary, and who could blame him if he left? But it would be a big loss to us. Les has probably done more for baseball hereabouts than any other individual in the community's history. He can do a lot more, if he stays here, and for other sports too. I certainly hope something will work out. He left his partnership with Coe Brett in the Sport Shop at the end of the year. It'd be too bad if his partnership with the whole town had to go too.

### Local Midgets' First Victory In Valley Puck Competition Close 5-4 Win Over Vernon

Penticton's midget V's came up with their first victory in Valley competition at the arena here on Saturday night when husky Roy Moscatto banged in the winning marker with five seconds to go to give them a thrilling 5-4 decision over the Vernon midgets.

In the juvenile joust, the smooth Vernon aggregation, last season's B.C. champions, had too much polish around the Penticton goal mouth for the locals and went home with a 5-1 victory.

The midget contest was nip and tuck all the way with the lead changing hands several times. Big Moscatto gave the Penticton crew a two goal edge in the first period, but smooth-skating little Sam Chiba cut that down one before the period ended.

Chiba combined with Kramer to tie things up and then a few seconds later the same combination gave the visitors a one goal edge. Both these goals came when Moscatto was sitting out a holding penalty.

Then Vernon's Miwa widened the margin to two goals, but Allan Gartrell cut that down one on a nice solo effort and the teams went into the final period with Vernon leading 4-2.

Penticton goalie Barry Richards was sensational in the finale, blocking everything that came his way while his teammates worked furiously to tie things up.

Castroon tied it up. Fred Castroon finally banged in the tying marker with the period almost three quarters gone when he polished off a nice bit of passing with Harry Tomlin.

That set the stage for Moscatto's winner with only five seconds to go. He sifted through the Vernon defence and let a hard one go that went in and came out again. Castroon poked it home again just to make sure and then Vernon laid set up a roar that Castroon was in the crease. Referee Don Moog and Phil Johnson ruled that Moscatto had already scored and that was that.

Big Murray Claughton scored a hat trick to pace the Vernon juveniles to their victory. The visitors took a one goal lead in the first stanza with Fred Spelay doing the damage. Claughton combined with Gerry Sparrow to beat Don Fraser in the Penticton net in the middle session as the hustling home team did everything but beat Harold Baum-brough in the Vernon goal.

Penalties — Moscatto, 1; Moscatto (unassisted) 9:40; Penticton, 2; Moscatto (Castroon) 10:35; Vernon, 3; Chiba (unassisted) 14:50. Penalties — nil.

Second period — Vernon, 4; Chiba (Kramer) 6:15; Vernon, 5; Chiba (Kramer) 6:50; Vernon, 6; Miwa (Sakakibara) 11:30; Penticton, 7; Gartrell (unassisted) 12:30; Penticton, 8; Kinsishanko, Moscatto, Armstrong, 13:50.

Third period — Penticton, 8; Castroon (Tomlin) 14:30; Penticton, 9; Moscatto (unassisted) 19:55. Penalties — Moscatto.

## Elks Soaring Far Out In Front After Double Win Over Badly Slumping V's

### OSAHL STANDINGS

	P	W	L	D	GF	GA	Pts.
Kamloops	41	23	16	2	187	150	48
Kelowna	41	19	19	3	166	174	41
Vernon	41	18	21	2	168	193	38
Penticton	41	16	20	5	167	161	37

Paul Thompson's high-riding Elks put themselves in the clouds on Friday and Saturday with a double win over the Penticton V's and, short of a completely disastrous slump, appear to have an unshakable hold on top place in the OSAHL.

The Elks rubbed it in on Friday, defeating the V's 9-3. Saturday the going was rougher for the league leaders and they snaffled two points on a narrow 4-3 victory.

On Friday they were thoroughly whipped. The difference was in the defence. Goalie Hal Gordon was hot and high unbeatable. The rugged Kamloops defence operated like a well-oiled machine.

The V's defence was as full of holes as a collander and goalie McLelland was far from sharp. Kamloops scored almost at will. They were four up at the end of the first period. They had scored six before the V's tallied in the second and they ran in three more in the third, the V's getting two.

CLOVECHOK STARS Smoothie Andy Glovechok with three goals and three assists led the point getters, while Jack Smith also helped himself to a hat trick. Norm Larsen rattled the hemp for two goals and collected an assist, while Johnny Millard netted one and figured for four assists.

Kamloops had the game in the bag before Jim Fleming put the V's on the score board, scoring on Andy Defelice's relay at the 12:40 mark in the second period.

Bill Warwick punched in the V's first third period goal, on a three man play with brothers Grant and Dick from a faceoff. Grant Warwick scored the second on McAvoy's bullet drive goalward which he deflected in.

V's drew five penalties with Kamloops getting four.

First period — Kamloops, 1; Millard (Glovechok) 3:00; Kamloops, 2; Glovechok (Larsen, Millard) 10:32; Kamloops, 3; Larsen (Glovechok, Kotanen) 10:45; Kamloops, 4; Larsen (Millard) 17:17. Penalties — Schmidt, Millard, Terry, Berry.

Second period — Kamloops, 5; Glovechok (McDougall) 3:30; Kamloops, 6; Smith (Millard, Kotanen) 12:17; Penticton, 7; Fleming (McAvoy) 12:40. Penalties — DeFelice, 2; Taggart.

Third period — Kamloops, 8; Smith (Carlson, Hryciuk) 1:50; Kamloops, 9; Glovechok (Larsen, Terry) 4:35; Penticton, 10; Bill Warwick (Grant Warwick, Dick Warwick) 10:30; Penticton, 11; Grant Warwick (McAvoy, Bill Warwick) 10:55; Kamloops, 12; Smith (Glovechok, Millard) 18:47. Penalties — DeFelice, Kotanen, Smith.

Shots on goal — Penticton 27, Kamloops 26. Referees — Stewart, Smith.

The modern game of tennis got its start when the extra pin was added when legislation was passed in Massachusetts and New York banning ninepins as gambling.

Miss Cressie captured the women's open singles with a hard fought 21-16, 8-21, 21-17 victory over another Summerland player Dorothy MacLeod.

Miss MacLeod and Miss Cressie combined to win the women's open doubles by downing the Penticton team of Nan Woods and Pat Gray 21-10, 21-11.

Winners of the men's consolation singles event was C. G. Crane while Summerland's Jean Eddie won the women's consolation singles prize.

The women's doubles consolation was won by Betty Biggs and Jean Battison, while the men's doubles was capped by the brother team of Bill and Jim Tidball, Miss Woods and "Mr. Crane won the mixed doubles consolation.

Members of the boys' team were Bill Hanlon, John Hatfield, George Brochu, Doug Fraser, Philip Paslawski, Ted Smith, Manfred Prusse and Roger Eaton.

Stars on the local roster were ex-Laker basketball star Bill Hanlon and George "Babe" Brochu.

The Penticton High Senior girls also competed in the tournament but were unsuccessful in their efforts.

### Vernon Canadians Play Here Friday

Dave McKay's fighting Vernon Canadians will provide the opposition at the Memorial arena here on Friday and the northern sextette will be out to keep ahead of the V's and hold onto third place in OSAHL standings.

The V's will travel to Vernon for the return match on Saturday night, while the red-hot Kelowna Packers try to cut the league-leading Kamloops.

Elks down to size on the Mainline team's home pond.

Tuesday will see the V's host to the Packers here, while Paul Thompson's high-flying crew will be the visiting team at the Vernon arena.

## HIGH SCHOOL SQUAD WINS VOLLEYBALL

Penticton High School Senior boys came out on top in the first of a series of volleyball tournaments held in Princeton on Saturday. School teams from Princeton, Similkameen (Keremec and Hedley) South Okanagan (Olive) and Penticton competed.

This is the first in a series of three volleyball tournaments for the South Okanagan championship.

The Penticton team was beaten in its first game by Princeton, but the latter team was declared ineligible because it was using basketball players currently active on the high school teams.

In its second game, the Pen H squad defeated the Similkameen team 13-15, 15-10 and 15-5. In their final draw the Pen H boys, trimmed the South Okanagan High School entry 15-11, 15-11.

Stars on the local roster were ex-Laker basketball star Bill Hanlon and George "Babe" Brochu.

The Penticton High Senior girls also competed in the tournament but were unsuccessful in their efforts.

Members of the boys' team were Bill Hanlon, John Hatfield, George Brochu, Doug Fraser, Philip Paslawski, Ted Smith, Manfred Prusse and Roger Eaton.

# Trio For Morrish; Merchants Tighten Hold On Top Place; Contractors Out Of Basement

COMMERCIAL LEAGUE STANDINGS

	P	W	L	D	GF	GA	Pts
Merchants	10	6	1	3	36	29	15
Packers	10	5	5	0	41	30	10
Summerland	10	4	4	2	33	30	10
Contractors	11	4	6	1	31	44	9
Garagemen	11	3	6	2	36	44	8

**MERCHANTS 7 PACKERS 3**  
Three goals by George Morrish helped the commercial league Merchants to a 7-2 win over the Garagemen Sunday thereby consolidating their position atop the league, while the Contractors jumped out of the cellar with a 4-3 win over the Packers.

In the first game the Merchants recorded a 5-0 lead in the first period, carrying the play to the Garagemen's end most of the time. With only four men in reserve the Garagemen found the Merchants' defence hard to crack and it wasn't until nine seconds from the end of the second frame that Don Moog's chances of a shutout were ruined by Maurice Bird.

The Packers scored first in the second game, but they lost the lead a minute later and never regained it. The younger team didn't seem

to click and the Contractors, going all out for a win, thoroughly deserved to come out on top.

**BETWEEN PERIODS** — Both Sunday's games were well worth watching—good dig-in hockey with little rough stuff. Only three penalties were handed out and the Contractors were the only team to emerge with a clean sheet.

Maurie Weeks went like a house on fire for the Contractors and so did his partners, Walt Holloway and Ray Johnson. Coach Howard Strong, who donned uniform for the game, looked happier than he's looked all season at the result. Last time his team met the Packers they went down 5-1. The Packers are always hard team to beat, especially if they are clicking. Having three different coaches since the season started doesn't help. Slim Bella started off. Then John Lawson, home from his job in Nelson, took over. Now Lawson's away again and Phil Johnson is acting as player coach. Phil is one of the most valuable players they have, but whether his teammates will take orders from him is a different matter. Now, with only one win in the last four games to their credit, it's looking as if they need someone to crack the whip and infuse some co-ordination into their talents. George Stoll, manager of the Summerland team, suggests that if one of the V's, say, were to take them in hand for an hour or so each week there's no telling how far ahead they would go. The Garagemen are still suffering from player shortage. Sunday only two men were on the bench when the game opened and the most they ever had was four. Useful as Gibson and Harris are, they can't be expected to be on the ice all the time. Maurice Bird is making himself useful — two goals Sunday — but the Garagemen still need more men. Lloyd Lede, the forward who scored the juvenile's only goal Saturday night, signed commercial papers Sunday. From all accounts he's a very useful man and if results and standings are any indication the Garagemen should have first crack at any new players. Mike Baron did double duty as referee again Sunday, but only in the first game. In the second Jack McIntyre eased the burden after holding down the job of announcer in the first game assisted by George McAvoy. Another half dozen unassisted goals were counted Sunday. Ernie O'Brien got two. These and his two assists pushed him up several notches in the player standings. George Morrish, Lloyd Burdett, Ray and Phil Johnson got one each. Paul Gryean, back with the Merchants, played his first league game Sunday. Credit should go to Joe Dolynuk of the Merchants for the number of times he thwarted Bob Gibson with the result the Garagemen didn't get as many shots on goal as usual and those that did head nowhere were handled nicely by Don Moog.

Bruce Cadden's nose is in the news again. Last week it was knocked about and again this week. That was only one of several injuries sustained Sunday. Mac Collins got a stick against his nose, Barrie Elman is short a tooth and a half. One was broken off at the gum and the other half way down. Sam Drossos saw the game from the stands, sitting out after a minor operation on his arm earlier this week. New secretary, Warren Palmer, must have burned the midnight oil last week, triple checking results to supply the first official league standings. Players' standings were brought up to date, too. Summerland didn't play Sunday so there were no fans down but nonetheless there was an excellent crowd and many of the spectators stayed to watch Fred Madden's midgeet pool work out. Fred's gradually sorting out his youngsters. There are about 85 — in teams.

This season's last league game will be played March 8, then it's the playoffs. One team will be left out and so far it looks as if a toss up between the Garagemen and the Contractors. That's just a wild guess not a prophecy. Back from Mexico after a holiday is Roy Chapman, Contractors forward. In the south he saw bull fighting which he declares is more a spectacle than a sport. He said nothing about commercial hockey.

**SUMMARIES**  
Merchants vs Garagemen: First period — Merchants, 1; Morrish (Dolynuk) 0:37; Merchants, 2; Morrish (O'Brien) 2:18; Merchants, 3; Mulligan (Morrish, McLean) 3:30; Merchants, 4; Morrish (O'Brien) 4:41; Merchants, 5; O'Brien (unassisted) 14:28. Penalties — nil.

Second period — Merchants, 6; O'Brien (unassisted) 17:53; Garagemen, 7; Bird (Wyatt, Harris) 19:51. Penalties — Fossen. Third period — Merchants, 8; McLean (Morrish O'Brien) 4:17; Garagemen, 9; Bird (Samos) 10:01. Penalties — D. Weeks.

Packers vs Contractors: First period — Packers, 1; Johnson (unassisted) 3:24; Contractors, 2; Holloway (Strong) 4:06; Contractors, 3; Ray Johnson (Weeks, Cadden) 7:44; Contractors, 4; Ray Johnson (unassisted) 16:48. Penalties — nil.

Second period — Packers, 5; Burdett (unassisted) 3:32; Contractors, 6; Holloway (Collins) 4:33; Packers, 7; Moore (Byers, Rothfield) 14:49. Penalties — Seelye. Third period — no scoring, no penalties.

**Packers Flying With 8-4 Win Over Canadians**  
KELOWNA — Minus reliable rearguard Tom Stecyk, sidelined with a back injury, the Vernon Canadians had little defensive strength to resist the Kelowna Packers' probing attacks and went down fighting to the tune of 8-4 in an OSAHL fixture here Saturday night.

Packers poured through the defensive gaps for a 5-0 first period lead and could have afforded to coast from then on. The second and third periods were much more even, with both sides counting thrice in the middle canto and Vernon getting the only goal of the finale.

Doug Lane's goal at the 4:04 mark of the second period broke Jack Gibson's shutout streak at 84 minutes and four seconds. In his previous outing he blanked Pentiction 5-0. Gibson's blocking again was a highlight as the never-say-die Canadians fought as if they were preserving a lead instead of trying to catch up.

**McKAY PLAYS**  
Dave McKay made an appearance after a long layoff due to injury, but six minutes of that time he spent in the sin-bin, twice nailed for charging just after he came out to take a shift.

Despite the loss of their linemate, Mike Durbin, in hospital with a serious arm fracture, Harvey Stein and Phil Hergeshelmer paced the Packers. Both got a goal and two helpers. Ken Amundrud with a pair of markers, Brian Roche and Joe Kaiser, with a goal and an assist, and Jim Middleton with two relays were next in line.

Obviously instructed to clamp down early and often after the stampede here of last Wednesday, the referees nipped any potential rough stuff almost before it got to the dirty look stage. Thirteen penalties were imposed, seven in the first period.

**Bostock Still Leading Athlete Of Year Poll**  
KELOWNA — Ray Bostock is assured of first or second place in the Vancouver Province's poll for the B.C. athlete of the year (1952). This information was given out by officials of the Vancouver Province as a flood of Bostock Ballots boosted the Kelowna rower out farther in front.

Chicago Black Hawks blueline brigade of Al Dewabury, Bill Gadsby, Lee Fogolin and Gus Morrison is the busiest in the NHL. The average weight of these four defenders is 164 pounds.

**GOLF LADIES BOWLING CLUB**  
Have now caught up on these scores, so here are the results for two weeks.

January 8 — Eagles, 2, beat Birdies, 1; Pars, 3, beat Bunkers, 0; Boggles, 1, beat Hazards, 2; but Boggles second game was 718 (best for the day) to Hazards 579.

Best three games were A. Larsen, 677; R. Moore, 506; G. Betts, 490; M. Ball, 483; G. Cook, 481.

Best individual efforts were — A. Larsen, 278, 245; M. Ball, 212; G. Cook, 204; I. Guile, 202; T. Frere, 189; R. Moore, 187; E. Cooper, 181.

January 15 — Bunkers, 2, beat Eagles, 1; Hazards, 2, beat Pars, 1. Best team score was Birdies 409 in the second game.

Best three games were — E. Cooper, 519; A. Larsen, 500; C. McGown, 487; P. Betts, 466; J. Battison, 455; T. Frere, 447.

Best single game — E. Cooper, 269; A. Lawson, 210; C. McGown, 189; J. Battison, 187; P. Betts, 180; A. Thom, 171 and 164; and T. Frere, 170.

**HOCKEY BOOSTER CLUB**  
Held one of the best meetings we've had so far in my opinion, last Thursday. There were only 10 present, but the discussions were very much to the point and had to do with the way the Hockey Club has not been clicking lately and the apparent cause being that some members of the team have not been living up to training rules and not keeping themselves in as fit condition as they should.

I am the last person to say that after a hard game of any kind, an athlete should not be permitted to relax a little. It's almost essential that he should, but I will also say that the place and time for such relaxing is not the night before a very important game. I have darned well fellows personally, may feel that this is none of the business of the Booster club and belongs solely to the coach and the executive of the Hockey Club. That is quite true, it is especially the business of the coach and his job is to rectify matters.

But here's where I feel the Booster Club comes in. Before the season started we, as a club, collected a lot of money from the people of this district, and for what? In order to be able to help the Hockey Club to get new uniforms and to give us the best players to improve the standing of our club. And I feel that our efforts were rewarded in the time we spent on the job.

The V's started out fine — a little too good to last I could not help but feel sometimes. And then they seemed to come apart at the seams. Every man, woman and child you talk to will tell you the answer and seem to know the reason for it. It is not a happy situation and I feel that the players themselves should think the matter over personally and realize that the Booster Club has a right to expect a better effort from our boys than we have been getting from some of them lately.

After all, it was the money we collected that went a long way to build up the team we now have, and I feel that all those who bought tickets from us to improve hockey and give us a good club in this town, have a right to hope that their money has been spent to the best advantage and that we, as the Booster club who collected that money from them, are more or less responsible.

Boys, you have put us in a spot, so see what you can do to get us out of it. And, let me add, I think you have started to do that — by the time effort you must have put up in Kamloops last Saturday, I hear you just started a little too late. Coming on top of that Friday night affair here — it amazed us all!

And tomorrow (Tuesday) — before this is printed — we hold another meeting of the Booster Club, at which I hope we will decide to stick right on behind the Hockey Club to the finish, come what may.

**HOCKEY**  
Two games played here since writing my last column. The first — that four all tie with Kelowna — we allowed the opponents to get the jump on us the first period and then had to come from behind to tie it up. It was a good game to watch, well handled by the officials.

Jack McIntyre started to come into his own with two nice goals, but I could not see any angle on that Kelowna team, but I did see an awful lot of holding, heavy charging and high sticking, most of which went unpunished, from those big Kelowna boys. But, as far, I haven't heard any of our fellows kicking about it, nor the

local press going off the deep end and writing scurrilous articles about it all. So what's it all about anyway, Kelowna. Don't tell me you people up there can't take it (I refuse to believe that your players can't), just because some of your men got injured.

So did some of our boys all taped up — but they are not squawking. It's all in the game and I must say your Mayor didn't do anything to uphold the dignity of his position, by trying to make an issue out of it with our Mayor.

And as to Friday's game — that 9-3 affair with Kamloops, we could do nothing right and Kamloops could do nothing wrong. As for Hal Gordon — he was a standout I stood behind his net for the third period and I've seldom, if ever, NHL net excited about a better display of goaltending. I'll be greatly surprised if he does not wind up in the Majors one of these days.

And now we have seen the three Warwicks playing as a line, and they sure can fly — they get better every time they get together — but its a tough chore to score goals against that splendid defense that Paul Thompson strings out across his blueline to meet all comers.

I felt that Smith and Stewart handled the game well and to try and confirm my own opinion, I asked a number of our players how they felt. They all said the same — no fault to find at all. Well when the players themselves are satisfied, why give a hoot about all those who hear who are yak yakking all the time about the men who are tooting the whistles out there.

**COMMERCIAL LEAGUE**  
Two good games down there on Sunday and the attendance is now much better than it was. And to those people who are eternally talking about the expense the arena was to the taxpayers — you can't have an arena without paying for it and after all, what is it? A Memorial to the boys of this town who gave their lives in the War. Do the taxpayers begrudge paying for that?

And let me tell you it is paying dividends, if not in dollars, in health and enjoyment to all our youngsters. I was down there Saturday and it was jam packed with kids of all ages, skating around and having a whale of a time. Better for them to be at that, building up clean bodies and minds, than into other things that lead to juvenile delinquency and later on to other crimes. There are your dividends.

# No Cheering As Packers Blank V's 5-0; Durban Out With Fractured Arm

KELOWNA — There were no cheers in the Kelowna Packers dressing room Wednesday night after shutting out their archrivals from Pentiction 5-0 in a savage, blistering OSAHL joust.

The whitewash, chalked up by a tireless teamwork, combined with a brilliant performance of Jack Gibson in the Kelowna net, commanded a high price. Mike Durban is lost for the season, with a bad fracture to his left arm.

The wild affair that rolled along like an uncontrolled stampede to reach its climax in the third period with several near-free-for-all, claimed at least six casualties, though only two players had to retire from the game — Durban and Packers' defenceman Dunc McLennan.

The V's, hurled back by the persistent checking of the Packers in the first period, struggled through three penalties to see the home team climb to a 3-0 first period lead. Packers scored again early in the second and added their fifth tally in the third.

It wasn't until midway through the game that the Pentiction crew began to rally, and from that point on they carried the play to the Packers. But luck and good management attended Gibson, who blocked everything they aimed his way. The final shots tally showed Pentiction had 34 on Gibson and Kelowna tested Ivan McLennan 33 times.

**HERGESHEIMER GETS TWO**  
Phil Hergeshelmer and Brian Roche paced the Packers with doubles. Frank Kully, who had to be suited after the game for a wide wash across the mouth, got the other. Defenceman George McAvoy of Pentiction was the badman, drawing three of the V's four minor penalties. Kelowna also drew four minors, including a novel one, in Kelowna, to Jim Middleton late in the third for trying a kick shot.

First period — 1, Kelowna, Roche (Middleton) 7:31; 2, Kelowna, Kully (Stein) 10:25; 3, Kelowna, Hergeshelmer (Durban, McLennan) 17:22. Penalties — McAvoy (2), B. Warwick.

Second period — 4, Kelowna, Roche (Tamblyn, Kaiser) 1:10. Penalty — McLennan.

Third period — 5, Kelowna, Hergeshelmer (Stein) 14:21. Penalties — Gibson, Durban, McAvoy, Middleton.

And your money has been well spent.

# Vernon Canadians Overwhelmed 8-1 By Kamloops Elks

KAMLOOPS — Another complete reversal of form took place in the OSAHL game played here in the Memorial arena last Wednesday night. Vernon Canadians, who dropped Kamloops Elks 5-4 in overtime at Vernon last Tuesday night, faded under a shower of rubber to drop an 8-1 decision to the league leaders.

Elks' line of Gunnar Carlson, Billy Hryciuk and Jack Smith, were performing at a torrid clip and accounted for five of the eight Kamloops goals.

With 15 seconds left in the second frame Bobby Ewing scooped up a Bill Tarnow offering, diked two Elks defencemen and faked Gordon out of position to notch Vernon's lone goal.

Hal Gordon played sensational hockey throughout the game, and was called on to make 12 saves in the first period alone. Lorne Lusler, in the Vernon net had one of his roughest nights and his defence let him down badly, particularly in the second period.

First period — Kamloops, 1, Smith (Hryciuk) 1:39; Kamloops, 2, Hryciuk (Terry) 8:11. Penalties — Millard, Terry.

Second period — Kamloops, 3, Smith (Carlson) 1:18; Kamloops, 4, Carlson (Hryciuk) 1:54; Kamloops, 5, Larson (Millard) 4:11; Kamloops, 6, Smith (Hryciuk, Taggart) 9:08; Vernon, 7, Balance (Tarnow) 19:45. Penalties — Millard, Harris, Terry.

Third period — Kamloops, 8, Millard (unassisted) 14:32; Kamloops, 9, Clovechok (Brown) 15:04. Penalties — Harris (minor and 10 minutes misconduct).

**HAWKS HAVE MORE**  
With nine players with more than five years experience in the NHL, Chicago has more experienced players than any other NHL team.

### Baseball Annual Meeting Thursday

The sports spotlight will turn briefly to baseball this week when the Pentiction Baseball Association hold its annual meeting in the Legion Hall on Thursday evening at 8 p.m.

Last season was one of the most successful in the long history of baseball in this city with the installation of night lights at King's Park and the Pentiction Athletics copping the Okanagan-Mainline League championship.

Activities of the past year will be reviewed at the Thursday meeting and officers for the 1953 season will be elected. President Bert Tidball urges all players and everyone interested in the promotion of the diamond sport to attend this important meeting.

### YOUNG WOMAN GOLFER CHOSEN ATHLETE OF YEAR

Marlene Stewart, the Fonthill, Ont., youngster whose meteoric rise to stardom stunned the golfing world in 1951, has been chosen Canada's outstanding woman athlete for the second year in a row.

The 19-year-old sensation won going away in the annual Canadian Press poll of sports writers and broadcasters.

First period — 1, Kelowna, Roche (Middleton) 7:31; 2, Kelowna, Kully (Stein) 10:25; 3, Kelowna, Hergeshelmer (Durban, McLennan) 17:22. Penalties — McAvoy (2), B. Warwick.

Second period — 4, Kelowna, Roche (Tamblyn, Kaiser) 1:10. Penalty — McLennan.

Third period — 5, Kelowna, Hergeshelmer (Stein) 14:21. Penalties — Gibson, Durban, McAvoy, Middleton.

And your money has been well spent.

**BALANCED RIDE!**  
BALANCED AGAINST ROLL • BALANCED AGAINST PITCH • BALANCED AGAINST JOUNCE

**Plymouth for '53**  
smoother, even on the roughest road

Pick the roughest road. Give the new Plymouth a workout. You'll discover the smoothness you would only expect in a more expensive car! It's Balanced three ways against roll, against pitch, against jounce. A revolutionary new system of weight distribution, springing and Oriflow shock absorber action makes the Plymouth Balanced Ride steady — more level — softer.

The new Plymouth offers you more for your money in many ways.

In POWER — with an engine of exceptional long life and economy. In DRIVING EASE — with wonderful parking and steering control. In SAFETY — with an optically curved windshield to reduce reflections — Twin Cylinder front wheel brakes — Safety Rim Wheels which give added protection in case of sudden tire failure. In COMFORT — with Plymouth Balanced Ride — a wider, softer rear seat — greater head, leg and hip room. In CONVENIENCE — with 30% more trunk room — central glove compartment on the dash — easier access doors. And last but not least — more in BEAUTY AND STYLE — soft, long, low lines — colourful beautiful interiors that would grace a far more expensive car.

Plymouth's traditional value is even greater than ever. Never has the purchase of a car been such a sound investment of your hard earned dollars. Drive — compare — use your own eyes!

George Morrish Leading In  
Commercial Loop Scoring Race

Three goals and two assists Sunday put the Merchants' George Morrish six points ahead of his closest rivals in the commercial scoring race. Jim McLean of the same team and Walter Holloway of the Contractors are in second place.

Below is a list, in order of points, of all commercial league players who have scored ten or more points this season:

	Goals	Assists	Total Pts
Morrish (Merchants)	10	11	21
McLean (Merchants)	9	6	15
Holloway (Contractors)	8	7	15
Gibson (Garagemen)	8	5	13
Burteh (Packers)	7	6	13
Richardson (Summerland)	4	8	12
Harris (Garagemen)	3	9	12
M. Weeks (Contractors)	0	5	11
G. Taylor (Summerland)	5	6	11
P. Johnson (Packers, Omen)	8	3	11
Samos (Garagemen)	5	5	10
Wyatt (Garagemen)	0	10	10
O'Brien (Merchants)	4	6	10
Rothfield (Packers)	5	5	10
Steininger (Summerland)	7	3	10
Collins (Contractors)	4	6	10

\* Includes 10 minute misconduct.

## CANADIENS LIGHTEST

Lightest team of the six NHL clubs is Montreal's colorful Canadiens. The Habs have a 17-man roster that averages 171 pounds a man.

CHICAGO — Kid Gavlin will defend his welterweight title for the fifth time when he meets challenger Chuck Davey in a 15-round bout on February 11 at Chicago Stadium.

The men's tennis ball weighs 16 pounds and the women's between 12 and 16 pounds.

TUESDAY — Kelowna at Penticton, 8:00 p.m.

WEDNESDAY — Figure skating, 4:00 to 6:00 p.m.; commercial all star practice, 6:30 to 7:30 p.m.; figure skating, 8:00 to 10:00 p.m.; commercial practice, 10:00 to 12:00 p.m.

Spokane May Enter For  
Savage, Allan Cups This  
Season, BCAHA Decision

VERNON — At the semi-annual meeting of the British Columbia Amateur Hockey Association held in Spokane recently it was decided by the provincial representatives that Spokane would be allowed to compete for the Savage Cup. This prize is emblematic of the Provincial championship.

In this event the Spokane Flyers will also be eligible to compete for the Allan Cup which is a dominion-wide competition. It was decided that the Spokane club would only be allowed in these playoffs for one season and then the matter would be taken up in the Canadian Amateur Hockey Association's headquarters in Montreal.

Dr. Mel Butler, representative for the Interior of B.C. in hockey matters, visited Vernon last week on his way back from Ottawa. He said, "The outlook is very optimistic for future playoffs with Spokane entered for the Savage Cup playoffs." He went on to say, "That many close to the border teams throughout Canada would oppose this move as our trophies should be ostensibly Canadian."

The Allan Cup was donated to hockey 44 years ago by Sir Montague Allan and was to be awarded to the best Canadian hockey team in the dominion. In eastern hockey this ruling has been alleviated somewhat and American teams are allowed to come across the border to compete for the cup.

## INTERNATIONAL OUT

Other points of interest to hockey fans that Dr. Butler disclosed was that Canada and United States would have no entry into the International picture. This means that neither country will be sending representatives to Switzerland this year. Last year the Europeans accused Canadian and American teams as using bullying tactics and having an unusual lack of sportsmanship.

Dr. Butler said that there is a very good pee wee hockey setup in Ontario. All the pee wee teams in the league meet at one particular city and hold a tourney. This keeps the hockey interest flourishing.

Commerks To Joust  
For Herald Trophy;  
Playoffs In March

Playoffs for the Penticton Herald Trophy in the Penticton and District Commercial Hockey league will start in March after the league schedule ends on March 8.

The bottom club in the five team league will be eliminated and the clubs in the first and third places will meet in a two out of three series. The team in second place will meet club number four.

Winners of the two contests will meet in a three out of five final for the trophy.

Summerland, now third in the league standings, was the winner of the cup last season.

ing with the young Canadians and gives them a chance to see what the other parts of the province have to offer. He said, "There is a perfect setup in the Okanagan for that type of league."

The Canadian playoffs in conjunction with OSAHL was greatly clarified by Dr. Butler. It is as follows:

The winning team of the OSAHL earns the right to compete with the Kootenay league for the Savage Cup. The four teams that comprise Western International League are Nelson, Kimberley, Trail and Spokane.

The winning team of these playoffs will then meet the winners of the Alberta, Saskatchewan and Manitoba playoffs. Then these teams will compete for the Western Canada championship and the eventual winner of that will travel east for the Allan Cup.

To find the winner of the prairie provinces it will be: Saskatchewan versus Alberta; Thunder Bay versus Manitoba and the winning two teams will play off to see which one will play B.C.

Dick Warwick, Kilburn, Fleming  
Still Up With Scoring Leaders

Despite their recent slump, the Penticton V's still have five players up there with the leaders in the OSAHL scoring race.

Vernon's high scoring Leo Lucchini is still far out in front of the pack with 50 points and still no penalties. Kelowna Packers' Mike Durban moved up the ladder last week to take over second place with 47 points, and right behind him with 46 are the V's Dick Warwick, Vernon's Johnny Harms and Kamloops' Johnny Millard.

Doug Kilburn and big Jim Fleming, the latter despite his recent lay-off, are still up there in the top fifteen with 44 points each, and high scoring defenceman Willie Schmidt has garnered 36 points and Don Culley 37.

Fleming, incidentally, leads all the goal-getters with 29, while Lucchini is tops in the assist department with 36.

Following are the OSAHL scoring leaders for games up to and including January 15.

BECKER TROPHY  
FOR TOP TEAM  
IN OSAHL PLAY

VERNON — In a letter to Mr. Frank Becker, Arthur Crowe, president of the OSAHL, said that a cup bearing the name "Frank Becker Trophy" would be presented to the winning team of the OSAHL team standings.

This cup is in honor of Mr. Becker's many years of valued service in the interests of hockey in British Columbia and particularly in the Okanagan. The letter is as follows:

"At an executive meeting of our league in October last, it was decided that a cup be presented to the club winning the championship in the regular league play, with the Willoughby Cup being presented to the winners of the league playoffs."

"The naming of the cup and the request to you to allow the cup to be called the 'Frank Becker' trophy in honor of your many years' valued services in the interests of hockey in British Columbia and particularly in the Okanagan

was left to the president, myself.

"This letter, as requested by you, will formally set out the request."

"All members of the executive felt that this league would be honored by having such a cup so named, and I can assure you most sincerely that this expression was not in any way meant for flattery or other than as I state."

"Our league would be more than pleased if you would consent to allowing your name to be engraved on the trophy for such a regular annual league championship."

"I will await your decision. Yours most sincerely, Arthur F. Crowe, OSAHL President."

The answering letter to Mr. Crowe from Mr. Becker is as follows:

"In reply to your letter of recent date requesting that my name be used on a suitable trophy which would be emblematic of the OSAHL Championship."

"I am deeply honored by your request, and at this time wish to thank you and your executive for this very great honor bestowed on me by having the proposed trophy named the 'Frank Becker Trophy.'"

"It has been more than a pleasant surprise and I can assure you that my very great interest in the game of hockey will continue."

Yours most sincerely, F. F. Becker."

## SILLS SUPPORT WALLS, JOISTS

Foundation sills are planks or  
timbers which rest upon the foun-  
dation. They are the base for the  
walls, and first-floor joists.

Sills are sometimes omitted to  
allow the floor-joists to rest direct-  
ly on the foundation. This is not  
recommended as it is difficult to  
obtain a level surface for the joists.

For light frame construction the  
sills are usually two-by-six inches.  
Sills should be embedded in mortar  
to make a more satisfactory bear-  
ing surface.

Where the sill is bolted into the  
foundation, as in sections of the  
country that have winds, the bolts  
should be three-quarters of an inch  
thick. They are spaced at intervals  
of from five to eight feet, extend-  
ing into the basement wall about  
18 inches.

Mortar is first spread on the  
foundation wall. The sill is laid  
while the mortar is still fresh. Care  
should be taken to ensure an even  
and airtight bearing. The nuts and  
bolts are not tightened by a wrench  
until the mortar has set.

Materials for sills may be of  
almost any wood. No. 1 common  
grade is preferable for standard  
construction. Because of the  
principal requirements of a sill is  
to withstand decay, many builders  
use sills which have been chemically  
treated to withstand rot.

All green plants use the radiant  
energy of the sun in the process of  
manufacturing their food from  
chemical elements in soil, water and  
air.

**Flying Horses**

AUSTRALIAN thoroughbreds can  
now fly to race meets in what must  
be a new high to horse luxury.  
A transport plane has been fitted  
up with aluminum boxes uphol-  
stered in red leather, as private  
suites for its fortunate equine  
passengers.

Could be that the boxes are  
made from Canadian aluminum,  
which is shipped all over the free  
world. This huge export market  
has helped make possible Cana-  
da's king-size aluminum industry,  
and the growth of more than a  
thousand independent Canadian  
manufacturing companies which  
turn this low-priced, versatile  
metal to thousands of uses. Alumi-

## Canadian Designs On Display

**THIS IS A COMBINED LIVING and dining area in a model  
Canadian house which was recently erected in Thorn-  
crest Village, Ontario. All the furniture shown is of  
original Canadian design and is listed in the Canadian  
Design Index, a record of good design maintained by the  
National Gallery of Canada. A duplicate of this room is  
being featured in the opening exhibition of the new  
"Design Centre" in Ottawa this February. Operated by the  
National Gallery of Canada in co-operation with the  
National Industrial Design Committee, this Centre which  
is immediately adjacent to Confederation Square, is readily  
accessible to visitors to Ottawa.**

## Canadian Designs Are Coming Of Age

Canadian industrial design is coming of age, and it  
is industrial design applied to the manufacture of  
farm equipment, household furniture and appliances,  
sporting goods, hobby equipment, and almost every  
manufactured article, large and small, for use in home,  
farm or industry.

Indicative of this growing atten-  
tion soon special offices and ex-  
hibition space will be opened in  
the country's capital city, Ottawa,  
to which every visitor will be wel-  
come. To be known as "The Design  
Centre", in these quarters will be  
found the Industrial Design Division  
of the National Gallery of Canada  
and the National Industrial Design  
Committee which is associated with it.

**ALL CANADIAN**

This industrial design show  
window will soon open with a  
large display of original de-  
signs in Canadian home furnis-  
hings, drawn from Canadian  
manufactured products found  
in the Canadian Design Index.  
In the initial display, the furnis-  
hings will be grouped accord-  
ing to room arrangements in a  
typical small house, rural or  
urban. Articles for dining and  
living areas, kitchen and out-  
door porch will be shown.

Similar exhibitions aimed at stim-  
ulating public appreciation of the  
place of good design to meet every-  
day needs in this country will be  
held regularly. Many of these ex-  
hibitions will be circulated from  
"The Design Centre" for presenta-  
tion in other cities and towns  
throughout Canada. In addition, the  
best of what is being done in other  
nations will be brought to Canada  
for occasional displays to encourage  
Canadian manufacturers to raise  
standards of design to the highest  
international levels.

Beside the Design Centre's exhi-  
bition area will be reading room  
and library facilities open to the  
public. Complete photographic ar-  
chives of Canadian product designs  
of merit will be on view, as well  
as popular and technical magazines  
and books on product design, in-  
terior decorating and architecture.

**DESIGN MERIT AWARDS**

Commenting on the opening of  
the Design Centre, Donald W. Bu-  
chanan, secretary of the National  
Industrial Design Committee and  
in charge of the industrial design  
division of the National Gallery  
says: "We hope that all Canadian  
and foreign visitors to Ottawa will  
visit the Centre. Industrial design  
changes every year, and whether  
the visitors are manufacturers, re-  
tailers, consumers, young or old,  
we hope to have items of interest  
which they can take back to their  
plants, stores, or homes."

Soon the activities in the De-  
sign Centre will be focused on the  
first annual Design Merit

**Beautiful

## Simple Design Ensures Pleasing House Exterior

An interior plan which meets the family's living  
requirements is of first importance in designing a new  
house, but the plan arrangement should lend itself to  
a pleasing exterior appearance.

For the small house particularly, simplicity is the keynote to ex-  
terior design while the appearance  
should also reflect harmony and  
good taste.

**PROPER BALANCE**

An unpretentious, well-balanced  
exterior finished with a few care-  
fully selected materials which har-  
monize in color and texture will  
ensure "eye appeal."

The width, length and height  
of the house should be in good  
proportion one to another.  
Doors and windows must be  
well placed and of proper size  
to suit the wall space in which  
they are built. Balance is also  
obtained by setting the house  
as low to the ground as possi-  
ble.

Unbroken roof and eave lines  
are especially important for small  
houses as they will give the house

## Gift Canadian Cedar To Be Used In Building Of Sample Hutment In U.K.

According to a mail dispatch just  
received from London, the cargo  
of merchantable Western Red Cedar  
and Yellow Cedar, a gift from the  
B.C. Lumber Manufacturers' Asso-  
ciation, has arrived in Britain. It  
will shortly be turned into a sample  
hutment dwelling for services per-  
sonnel.

The shipment consisted of mer-  
chantable No. 1 Red Cedar in the  
amount of 6,897 board feet, and  
Yellow Cedar in the amount of  
1,158 board feet.

The U.K. Timber Development  
Association will supervise the con-  
struction of the hutment, using a  
design supplied free of charge by  
a member firm of this association.  
It is the hope of cedar-producing  
firms here that the use of this al-  
l-cedar type hutment will provide a  
new market for British Columbia  
cedar.

The hut will have a 16' clear span  
and will be 32 feet long. There will  
be a clear height of 8'-6" from nine  
inches from the floor to the under-  
side of the roof beams, while the  
height to the eaves will be eight  
feet. The floors will be made of  
panels 3"x8" Red Cedar planks,  
tongued and grooved. The sides and  
gable walls will be formed of ver-  
tical 2"x8" cedar planks also tongued  
and grooved, and fitted together  
with rails at the top and bottom.  
Each gable will have a door and  
each wall a window.

While this is still in the experi-  
mental stage, officials in the United  
Kingdom and suppliers of cedar  
products here are optimistic re-  
garding the future of this new style  
hutment, which they claim can be  
prefabricated and will be particu-  
larly useful in "blighting overseas  
forces in Britain and Germany."  
Officials stress the fact that no  
order has as yet been placed but  
that every effort is being made to  
create and establish this new mar-  
ket.

## Color Variations Add Cheerful Touch To Rooms And Halls

Producing a variety in color and  
design, while maintaining a close  
color relationship from room to  
room makes a much more pleasant,  
livable home.

For instance, a bright bold wall-  
paper pattern in the front hall of a  
small home adds a gay cheerful  
charm which can never be created  
with plain walls. Textured pattern  
on walls in the living-dining room  
with a patterned drapey at the  
windows gives variety.

And there is no need for a kit-  
chen to be the dull dreary room  
of the house. Put life and spirit  
into it with a new-colored modern  
wall paper designed specifically for  
kitchens with that washable, scrub-  
able super-coated surface.

## Naramata Locals

A family service will be held next Sunday afternoon at three o'clock at St. Peter's Anglican Church, in accordance with the recently inaugurated local church schedule. The new plan calls for Sunday School each Sunday morning at eleven o'clock, other than the fourth Sunday when the combination service will be held during the afternoon. Among those assisting with the Sunday School classes are Mrs. R. J. Tinning, Mrs. W. G. Clough, Mrs. A. L. Erat and Miss Marjorie Simes.

Mrs. W. Steele has returned to Naramata after visiting in Sumnerland since the first of the year. George H. Williams, of Sumnerland, brother of the late J. C. Williams, was in Naramata on Sunday to visit his nephews, J. Gordon Williams and Lester Williams.

The annual congregational meeting of the Naramata United Church is scheduled for the evening of January 29. It will be preceded by a "basket supper" which will commence at six o'clock. Tea and coffee will be provided but those attending are asked to include dishes in their food baskets.

Mrs. M. Morch of Peachland is a guest at the home of Mrs. Edna Hughes.

Carol Tillar, small daughter of Mr. and Mrs. J. C. D. Tillar, was seven-years-old on Sunday and, in celebration of the occasion, was hostess to a number of her small playmates. A happy afternoon of games and play was followed by the serving of party refreshments which included the traditional birthday cake. Present at Carol's party were Karen Hardman, Dianne and Lynn Sworder, Nancy Gawn, Deanna Gawn, Margaret Young, Elaine Walsh, Carol Kennedy, Wendy Bowring, Sue Workman and Georgeen Couston.

Rev. Russell Bealisto, Barons, Alberta, gave the sermon at the Sunday morning services of the Naramata United Church. Mr. Bealisto is the guest lecturer at the Leadership Training School.

Mr. and Mrs. H. P. Salting are guests at the Royal Anchor Motel for the winter months.

Mrs. George Hume, Kelowna, was a visitor on Wednesday with her brother and sister-in-law, Mr. and Mrs. J. A. Noyes, and her mother, Mrs. Frances Noyes, who is a patient in the Penticton Hospital.

## Legion Wins Eight Straight In Local Midget Puck Loop

The Legion squad racked up its eighth straight win in city midget hockey league play last night with a hard fought 6-4 victory over the Royals team.

Fred Causton and Herb Moore notched a pair of goals each and Harvey Holoboff and Fred Harrison scored singletons for the winners, while Bob Coulter tallied a brace of goals for the losers, Dennis LaChapelle and George Drossos were the other Rotary marksmen.

In the other midget encounter, Allan Cartrell and Charlie Richards sparked team number three to an 8-6 victory over team number two, Guntrell and Richards each scored a hat trick, and Ron Lindberg and Ryan Conley rounded out the scoring for the winners.

Roy Moscatto scored a hat trick for the losers, while other goal getters were Harry Tomlin with two and Mike Armstrong with a singleton.

Dutch burghers introduced bowling to North America. According to the American Bowling Congress there was scarcely a tavern in New Amsterdam which did not have its wooden or stone alley for skittles of ninepins.

## Central Purchasing Agency Not Warranted Committee Reports

The Central Purchasing Committee was set up under instructions of the 1952 convention. Its members were appointed by President A. R. Garrish. Members of the executive are: T. J. McKenzie, chairman; S. D. Price, W. O. June.

The purchasing committee's report, presented at the annual BC-FGA convention in Vernon last week, follows:

Your committee commenced investigations after the first meeting of the committee which was held in West Summerland in April, at which meeting President Garrish instructed the committee as to its duties.

During the process of investigation it was discovered that a similar resolution in 1945 had called for a committee to investigate Central Purchasing. The report of this committee was closely examined by the present committee and interviews were held with men directly connected with purchasing of supplies for both the orchard and packinghouse and each submitted opinions that coincided with the 1945 report. It was found that central purchasing exists in essentials such as fertilizers, spray material, labels. These are purchased by Associated Growers, Federated Shippers, Kelowna Growers Supply and B.C. Tree Fruits. Other essentials such as ladders, picking bags, gasoline, orchard and packinghouse machinery are so complicated by variety of makes and agencies that mass purchasing is impossible.

Your committee has found that conditions have not altered sufficiently since the 1945 report to warrant the setting up of a central purchasing agency.

Artificial flowers may be happily used occasionally, but should not become a permanent fixture in a room. Between flower seasons for your dining table the well designed ornamental centre piece is a great asset.

The first American Baptist church was founded in 1838 in Providence, R.I., by Roger Williams.

**ITCH RELIEVED IN A JIFFY**  
Very first use of soothing, cooling, liquid D.D. Prescription positively relieves raw and itch-caused by eczema, rashes, scalp irritation, chafing, other itchy troubles. Grease-free, stainless, 45c trial bottle must satisfy or money back. Ask your druggist for D.D.D. PRESCRIPTION.

Canadians' personal income in 1951 was 18 percent higher than in 1950. During 1951 about 53,000 horses were eaten as horse meat in the United Kingdom.

## POWER SAVING IS PASSED ON TO CONSUMERS

Sales of electric power to Penticton residents since the change in contract with the West Kootenay Power and Light Company went into effect last year have increased by 25 percent, but revenues to the city have increased only 10 percent, according to a report presented to City Council last week by city clerk H. G. Andrew.

As much of the saving was passed on to the consumer as possible, Mr. Andrew's report stated. This amounted to about 66 percent. Maintenance, increased costs and paying for line losses accounted for the other 34 percent.

In 1951 the city sold nearly 14,000,000 KW for a revenue of \$364,553 — an average of 2.6 cents per KW.

Since last February, when the new contract went into effect, 17,063,987 KW have been sold for \$401,171 — an average of 2.35 cents.

Actually the city purchased more power than it sold. In 1952, 18,230,400 KW were purchased, part of the difference being absorbed in line loss, which is usually reckoned at about 18 percent.

Power cost the city .93 cents per KW before the revision and .76 per KW last year — a reduction of about 19 percent.

A one year perfect attendance pin was presented to Kiwanian George Arsen at the meeting last week.

**HOT COMICS**  
A newspaper clipping has come to my attention concerning a branch of the Parent-Teacher Federation which fears that if horror comic books are banned from the newsstands the youngsters will start "bootlegging" the comics.

This presents almost irresistible possibilities for a moving picture and I hope to get busy on the script immediately. In the meantime I've sketched out a draft for the final scene.

In this scene we see the hideout of Butch, the hot comic king. The walls of this dive are covered with risqué pictures of typical comic strip heroines attired in the skins from tiny leopards, Plexiglass cases and some wearing almost nothing but a dagger in the thorax.

Butch, a tough, hard-boiled brat of 10 who wears a beanie pulled low over one eye, is moodily working a yo-yo up and down when Billy and Sally enter. Billy is a clean-cut lad with a surprisingly large jaw for a nine-year-old. Sally is a cute trick. Butch eyes her boldly from the top of her patent leather shoes to her blond pig-tails. Finally, with a vicious double twist of his yo-yo, he speaks.

Butch: So you're the new operators, huh? Ever run hot comics before?

Billy (toughly): Out the double talk, Buster. You didn't get us here to play Twenty Questions.

Sally (fighting her lips): Yeah. Thipeak up, Butcher.

Butch: Okay, Baby Sparkle, simmer down. I just wanted you to know we ain't dealing with no Donald Duck stuff. This is the goods.

Right off the boat. Well, let's talk business. Drink?

(He shoves a bottle at Billy and Sally. They pour themselves stiff hooks of Cocoma, and polish them off neat without a flicker.)

Butch (leaning forward eagerly): Kids, we just got in a new shipment of Jungle Girl. It's the hottest stuff since they banned True Monster Comics and I figure you and the doll are the kids to get it rolling.

Billy: Jungle Girl, eh? (He shudders in spite of himself.) So you're the comic-segger who has those goods, eh? No wonder you're feared by the P-T-A.

Butch: I want real distribution on this stuff, see. I want you to muscle in on the Boy Scouts, Girl Guides, kindergartens, Sunday schools, playgrounds, the works. You get a 50-50 take and there's plenty more marbles where that came from.

Billy: We work the usual way?

Butch: Yeah. I got the Saturday Evening Post bags right here for you and Chasteline for Sparkle. Plenty here. And remember: Keep your bicycles at the curb for a quick getaway.

(With precise gestures Billy extracts a chocolate cigarette from a crumpled package, taps it nonchalantly on the back of his hand and begins munching it. He looks at Butch with frank curiosity.)

Billy: You know, Butch, you rather interest me as a person. You seem so utterly callous, so unconcerned about the effects of these habit-forming comics. Out there beyond these four walls there are hundreds of broken children heading for The Bad Place, victims of the curse of these contraband funnies. Yet you sit here playing with your yo-yo as if you hadn't a care in the world. Have you no heart, boy?

Butch: I was brought up on hot comics myself. They made me what I am today. Why, I can remember when they were legal. You could get a copy at any corner store. Then they made it tough for us. And that's when I cash in. Like I always say, Billy, I'd rather be a rich boy with a pocket full of gold than a poor boy with a worried mind.

**Ambulance Ass'n To Elect New Officers**  
Members of the St. John Ambulance Association, Penticton Centre, will elect officers for 1953 at a meeting to be held in the Red Cross Centre, Main street, Thursday, January 29, at 8 p.m.

Any persons interested in first aid are invited to attend the meeting.

**of a badge.)**  
Butch (half rising): Not that! Not the ...

Billy: Yes! The Junior G-Men! I am really Billy Tracy and this is Sally, my true-blue assistant. And now that we have all the evidence against you and your nefarious gang ...

Butch (snarling): Why you dirty, double-crossing Mickey Mouse-reader!

(He makes a quick movement to the pea-shooter he carries in a shoulder holster, but Billy is too fast for him. He whips out his trusty water pistol and squirts it at Butch.)

Billy: You're dead!

(As Butch sinks to the floor Billy clasps Sally in his arms and they smile soulfully at each other.)

**LOOKING AHEAD WITH TOM DALY**  
Most of us are reluctant to face unpleasant truths. That sensitive spot on our molar is probably just a temporary irritation; that twinge of pain in the region of the heart will no doubt go away if we give it time. Too many of us put off seeing our dentist or consulting our physician for a periodic check-up. Similarly, possibility of early death is an unpleasant fact that we try hard not to think about. Yet only two categories of people can afford to disregard such a contingency—those who have no dependents and those who have made, through life insurance, sufficient provision for their loved ones against the chance of untimely death. If you cannot conscientiously claim to be in either of these categories, "Drop in" or Phone.

## Principles Of Rotary Outlined By H. W. McInnes

An outline of Rotary Club principles and operations was given the local club members at their luncheon meeting in the Prince Charles Hotel on Monday by Harold W. McInnes, Q.C.

Mr. McInnes, a former president of the club, pointed out that the organization exists "as a service to the community and the underprivileged, not for the benefit of the members or groups of members."

He explained the way in which members are chosen, from the various classifications of trades and professions, so that the whole membership represents a complete cross-section of the entire community.

Rotarians never carry out a "drive for membership," he also stressed, but he advocated being alert to fill open classifications with the best type of representative, so as to preserve the cross-section quality of the organization.

The balance of his remarks was given over to explanations and commentaries on other phases of Rotary Club membership activity.

## VERNON ARENA MAKES \$470 DURING DECEMBER

VERNON — The Vernon Civic Arena showed a profit of \$470 during December, Ald. D. D. Harris, the City's representative on the Arena Commission, reported to the City Council last week.

"That's very gratifying," he commented.

**SALES COURSE**  
According to a report by Bob McDougall there are now 40 persons registered in the Junior Chamber of Commerce advertising and sales course.

## PEPPY WAY TO START THE DAY when you wake up L-O-G-Y

If you often feel "loggy" on getting up—tired, sluggish feelings drag you down all through the day—an inactive liver with resulting habitual constipation may be the cause. Millions of people who suffer this way find that Kruschen Salts help bring relief from these symptoms. The reason Kruschen is so widely recommended is because it contains active principles similar to those of world-famous Mineral Springs. Kruschen acts two ways—laxative and diuretic. It promotes healthy action of the bowels and the kidneys. You just take a little Kruschen in hot water or your morning beverage, when needed. Try it and you'll rely on it—as so many do—to help you to new pep and zest, by aiding healthy, natural elimination of the body wastes through bowels and kidneys.

## Key Man in Averagetown, Canada

If you live in an average Canadian community, you can easily see that it's changing.

Everywhere you look, new construction tells a story of progress. Here, perhaps, is a handsome new store. There, a new bridge, office building, power plant, highway, housing project—or some other vital development that makes life better for all.

But do you know that many of these developments are made possible by a certain Key Man? And can you guess who he is?

He's the typical life insurance policyholder—representing millions of Canadians.

How can he do all this just by owning life insurance?

Because a large part of his premium dollars is invested for him in sound securities which help finance many such projects. Each year, more than 225 million life insurance dollars are put to work in these useful ways from coast to coast!

The life insurance policyholder is a helpful citizen in another way. For the money he puts aside for the future helps safeguard his family from ever becoming a financial burden to others.

All in all, he's an asset to his community and the nation!

we've put the mule out to pasture

Once standard equipment in a cotton mill, the old spinning "mule" has long since gone by the board. Dominion Textile's manufacturing equipment is now among the most modern in the world. Machinery bought by our 7,239 shareholders (94.7 of them Canadians) help us to turn out top quality goods and provide jobs for the 12,500 Canadians working in our plants.

But equipment improvements, such as replacing the mule, aren't everything. We have our troubles trying to compete with the products of other countries which pay lower wages. In Japan and India, for instance, wages run about 15 cents an hour, while we pay well over a dollar an hour.

## Planning Makes Buffet Supper Light Work

A buffet supper is ideal when your guests drop in. And if it is carefully planned, you will save yourself a great deal of work so that you, too, can enjoy what's going on.

Good Housekeeping's food editors make these suggestions on planning a buffet supper:

1. Before you plan the menu, decide how you will route the traffic around the table. Guests should be able to move around the serving table easily and serve themselves in order. If you can, leave enough room between dishes so that guests can put their plates down while serving themselves.

2. Try to arrange your food and china on the table so that napkins, dinner plates, hot dishes, cold dishes, bread, relishes and forks will appear in that order.

3. Make guests feel at home by allowing them to sit on the stairs, the floor or anywhere they like.

4. Dessert can be served from the kitchen, or placed on the buffet table.

5. Prepare most of the dishes ahead of time so you can relax when your guests arrive.

6. Food should be fork food — no large pieces that need knife cutting, and nothing unmanageable on the plates.

7. Water and glasses, coffee and cups, spoons etc., can be placed on a side table where guests may help themselves at any time during the meal.

**SOUP SCOOPS**  
Combine Mushroom and Beef soups for an extra-rich soup, combine 1 can each of condensed cream of mushroom and beef soups. Stir in 1 can of water or milk. This makes a meaty soup that is sturdy eating. Serve with toasted crackers spread with cheese.

Use Spaghetti and Dried Beef in Casserole: A can of spaghetti in tomato sauce with cheese added up to a grand lunch or supper dish when teamed with a little dried beef. Pour spaghetti into a greased casserole; stir in about 1/4 cup of chopped dried beef. Dot the top with butter. Bake at 400°F. until hot and slightly brown on top.

**Soup, Beans, Milk in Family Meals:** Condensed soup, prepared with milk, contributes all-round food value to your family meals. And it's wise to serve creamed soups (with milk) often because recent surveys show that calcium is the nutrient most frequently lacking from the average diet.

Use Popcorn for Garnish: Light, fluffy popcorn is a perfect garnish for several soups. Pass a bowl of the buttered popcorn to go with tomato or vegetable soup. Let each one help himself and sprinkle it on soup so it can be eaten while crisp.

**GRILL FRANKS**  
Split frankfurters and grill. Serve in a spicy barbecue sauce on toasted split frankfurter rolls.

**GOLDEN CORN BREAD**

1 cup all-purpose flour; 1 teaspoon salt; 1/2 cup brown sugar; 1/2 cup milk; 1/2 cup butter; 1 egg, well beaten; 1/2 cup cornmeal; 1/2 cup baking powder; 1 cup water.

Mix flour with salt and baking powder, combine with cornmeal. Add milk and ROGERS' GOLDEN SYRUP to well-beaten egg, and turn this mixture into blended dry ingredients. Lastly add butter. Stir just to blend. Pour batter into hot, oiled pan. Bake for 20 minutes at 425°F. Serve smothered in warmed ROGERS' GOLDEN SYRUP — it's delicious!

## The Women's World

### The Recipe Corner

Whether you're baking for family or guests, or for gift packages, you might like to try your hand at some of the following recipes.

**PRALINE COOKIES**  
1 cup (1/2 cube) butter  
1 cup brown sugar, firmly packed  
1 egg, well beaten  
3 tablespoons flour  
1 teaspoon vanilla  
1 1/2 cups (6 oz.) pecan halves

Melt butter over low heat. Add sugar and blend. Add the egg, flour and vanilla and mix well. Stir in pecans. Drop one-half teaspoon batter at a time on well-greased cookie sheet. Place cookies three inches apart and bake in moderate oven (350 deg.) for about 8 minutes. Allow to cool 2 to 3 minutes. Remove cookies with wide spatula and place on cooling rack.

Note: Praline cookies will be very thin and crisp. Pecans will form a cluster in the center of cookies. Do not overbake.

**Storage:** To preserve crispness of cookies, store in loosely covered container. Makes about 4 dozen cookies.

**SPICY PECAN SQUARES**  
1 cup butter or margarine  
1 cup brown sugar, firmly packed  
1 teaspoon vanilla  
1 egg, separated  
2 cups sifted flour  
1/2 teaspoon salt  
1 teaspoon cinnamon  
1 cup chopped pecans

Cream together butter and sugar. Add vanilla and egg, yolk. Beat until light and fluffy. Sift together dry ingredients. Add half the nuts. Stir into creamed mixture. Press into oiled shallow pan (10x14x1 1/2 inches). Brush top with lightly beaten egg whites. Sprinkle remaining nuts on top. Bake in moderate oven (350 deg.) 20 to 25 minutes. Cut into squares and remove from pan. Cool on a rack. Makes 32 two-inch squares.

**CHERRY FINGERS**  
1 can sweetened condensed milk  
1 1/2 cups chopped dates  
1/2 cup candied cherries  
1 1/2 cups shredded coconut  
1/2 teaspoon salt  
1/2 teaspoon almond extract

Combine all ingredients well. Bake at 350° F. for twenty-five minutes in a well greased shallow pan. When cool cover lightly with butter icing and walnuts. Cut into squares.

**New Ideas For Home Decorator**  
The proper ingredients are not always available to the home decorator, especially in some of the remote areas of the province. So people who are refurbishing their furniture or doing odd jobs of redecorating about the house may find the following recipes useful.

**VARNISH REMOVER**  
1 cup flour  
3 cups water  
1/2 cup lye

Mix flour with 2 cups of water mix lye and 1 cup water. Combine the two mixtures and apply with a stick.

**FURNITURE CREAM**  
1 1/2 oz. beeswax  
2 oz. castile soap  
1/2 pt. turpentine

Dissolve the ingredients in 1/2 pint of soft water.

**CLEANER**  
2 cups hot soap  
2 cups boiling water  
1 cup cleaning gasoline

Rub in well with cloth.

**RUG CLEANER**  
1 box soap flakes  
1 oz. soap bark  
2 oz. borax

1 1/2 quarts hot water  
1 oz. ammonia  
2 1/2 quarts cold water

Dissolve the first three ingredients in hot water. Add ammonia and cold water. Apply to rugs with stiff brush and rub into good lather. Rub off with damp cloth. Remove as much lather as possible with a knife or ruler.

**SMOOTH GRAVY**  
You'll have no more lumps when thickening gravy when you do this. Add the flour to water in a jar. Shake it well, then add to the meat drippings.

### Needlecraft News

by Pauline Roy

QUILTING IS A NEEDLEWORK for beginners. Little girls who have learned to sew a neat seam quilt very nicely. Yet the greatest needlework artist loves quilting because they can never exhaust its possibilities. Quilting itself takes so little attention that a woman most often enjoys doing it in the company of others so, quilting is the sociable needlework.

An Art from the Past

Quilting is an art that warms the hearts of Canadians because it is closely entwined with the history of our country. The early settlers were faced with the problem of creating with brains, fingers, needles and thread the necessities of daily living. Coverings made of patchwork and applique used scraps of materials, and the quilting served a double purpose of anchoring a warm lining and of providing a simple but effective decoration. Hundreds of designs spread from one end of the country to the other, exchanged by friends or carried by travelling peddlers and emigrating wagon trains. Small pieces are done in the hand or in embroidery hoops. You can do it while you're visiting a friend, or have a few free minutes at home. Large pieces must be stretched taut in quilting frames, so they are often group work. All the afternoons that neighbors have spent together around a quilting frame would make a century of lively contentment.

**Colorful Bedroom Accessory**  
Patchwork quilts take their rightful place in interior decorating. Serving as a bedspread, as well as warm cover, in combination with Early American type furniture, they add color and charm to the bedroom. ## High School News... The Big Eye

By JOANNE VAUGHAN

#### DEBATE

For three years now, Penticton High School has entered the debating competitions for the Leonard Perry Wade trophy with only average results. This year Pen High wants to win that trophy and this can be accomplished with the support of all the students. Support does not mean you have to join the debating team, but you can attend the competitions and let our team know we are right behind them.

The topic for debate this year is "Resolved that the present policy of immigration, as supported by the federal government, is adequate for the needs of Canada." The first round of the debate will take place on February 7 with the second round on February 14. The finals of the interesting and also educational competitions will take place during Education Week in March.

The best of luck goes with our team of accomplished speakers who will be able to coach by Reg. Cox with assistance from J. Y. Halcrow. You have our backing and we know you'll do your level best to win.

#### MARCH OF DIMES

The results of the March of Dimes campaign in PHS were published over CKOK last Monday afternoon. The program was broadcast into every room in the school and students stopped in the middle of their studies to listen.

Vince Duggan of CKOK introduced the guest speakers who presented the cheques for the March of Dimes.

Nancy Richardson, the senior Red Cross group representative, expressed thanks to M. P. Finnerty and CKOK for their assistance during the drive, to the teachers and students for their generous contributions, and to Miss M. Astell, sponsor of the senior Red Cross group, for her advice and guidance. On behalf of the senior high school, Nancy presented CKOK with a cheque for \$65.66.

Stella Brock, a member of the Junior Red Cross group, gave thanks to the sponsor, Mrs. J. Howe, and to Mr. Cox and the 9-D's, who collected \$9.12. Stella presented a cheque for \$43.76 from the Junior high school.

The benefits of a recent basketball game between Oliver and Penticton were presented by our athletic council president, David Pritchard. These benefits, in the form of a silver collection, amounted to \$30.61.

The total collection from Pen High was \$148.93. Sincere thanks and appreciation were extended to the students and staff of PHS for their time and effort on behalf of the March of Dimes campaign.

#### HI-Y NEWS

That appetizing odor everyone sniffed in the halls Thursday afternoon was the smell of trays full of delicious doughnuts. The Hi-Y girls were right on the job again as they tried to appease the hunger of the hundreds of famished students. As we said before, we would like to see more of these delicious doughnut sales.

#### ALS QUESTIONNAIRE

The final results of the questionnaire sponsored by the Arts, Letters and Science executive are as follows: 805 students completed the quiz; 633 knew who the ALS president is (who is Margaret Brett, of course); 422 knew who their grade representative is; 178 belong to fine arts activities; 187 belong to athletic activities; 160

belong to service activities; in music, 17 prefer solo singing, 72 belong to vocal groups, 103 play instruments, and 46 play instruments in a group; in dancing, 21 do solo dancing and 43 belong to group dancing; 19 do oil painting; 28 do water painting; 13 do chalk drawings; 60 do sketching; 11 do lettering; 10 go in for elocution; 10 would like to try debating; 12 would like to do public speaking; 78 belong to dramatic groups; 11 write poetry; 14 write prose; 126 would like to hear programs of recorded music; 463 would like to see talent shows; 202 would like to have a quiz program; 93 would like to hold a spelling bee; 117 would like to listen to debates; 53 would like to listen to guest speakers; 127 would like to see a student recital; 136 would like to see an operetta; 145 would like to see a start recital; 98 would like to see an art display; 217 like to hear orchestra music and other interests were expressed by 24.

#### IMMIGRATION

At an assembly of senior students in the auditorium Thursday afternoon, Wilma Unwin introduced Dr. W. G. Black who spoke on citizenship and immigration.

Dr. Black, of a tour of the Interior of B.C., has already given talks in Kamloops, Vernon, Oyanama and Kelowna. He is a member of the faculty of UBC and also an official of the Department of citizenship and immigration which comprises four branches: citizenship, immigration, registration and Indian affairs. In the field of citizenship, Dr. Black worked with immigrants, minority groups and general citizenship.

In his interesting talk, Dr. Black said that someday the newcomers to Canada will be the oldtimers of the country, just as our fathers are today. It is sad, however, to notice that the Indians, the people who once owned and ruled Canada, are enjoying very few privileges, he said.

Immigrants to Canada are chosen for their health and adaptability from displaced persons in camps in Great Britain, the Netherlands, West Germany, Italy and Poland. A few people from Denmark and Sweden come of their own free will. Of the displaced persons forced to come to Canada, 98 percent of them intend to stay and become good citizens. In order to become citizens, newcomers must learn about Canada and the language of Canada and declare their intentions to be citizens. Citizens are judged in terms of their learning, their attitude and their co-operation, the speaker continued.

#### NEED HELP

Newcomers need plenty of help, for life in Canada is very hard for

them at first. They need jobs, homes, answers to their questions, help in learning the laws, customs and languages of Canada, friendship, understanding and a welcome to the clubs and societies. We can't be too kind to these new citizens. Some people in Canada are inclined to be resentful, nasty and selfish towards the DP's, and to ridicule them. Too many people are narrow-minded, mean, selfish isolationists, who will never build a strong nation. The kind of people Canada needs are those who are kind, considerate, charitable and democratic. The newcomers realize there is a democracy in Canada. There is no fear and no want, Dr. Black declared.

We should work towards the aim of more justice and acceptance for newcomers and lay the groundwork for complete assimilation. All our problems will be solved if we have patience and understanding and study all possible solutions to help those who are less fortunate than ourselves.

Newcomers to Canada do not wish us to lower our standards of living for them, rather they want to help us maintain our high standards.

Following a number of questions from the students, Scotty Henderson expressed the thanks and appreciation of the students to Dr. Black for his enlightening address.

#### PERSONALITY PORTRAIT

Nearly everyone has heard the clear, bass voice of our young radio announcer, Bob Fye. Bob, a well-known grade 12 student, has his own radio program of old records over CKOK every Monday, Wednesday, Friday and Sunday evening.

Over 2100 records are now in Bob's collection which, Bob says, "just started by itself. I began to take it seriously only two years ago."

Some of Bob's favorite records from his extensive collection, which contains records dated as far back as 1888, are the records by the Italian tenor, Caruso. He has over 70 of Caruso's records including two which were recorded in 1899.

Bob, who is 17, says his favorite subjects at school are French and English 91. Outside of school, with his radio program, homework and his Saturday job as record salesman at Cliff Greyell's, there is little time for other activities. However, hockey games share a large part of Bob's interest, and he attends as many games as possible.

Next year Bob wants to attend grade 13 at Pen High but after that his plans for the future are rather vague. He would like to work in some end of record manufacturing if possible when he is through school.

#### RED CROSS

Grades 9 to 13 inclusive were privileged to hear a talk by an outstanding speaker in the auditorium Friday afternoon. The speaker was Miss Lucille de Satge, a member of the provincial executive of the Red Cross. Chairman of the assembly was Janice Peaker.

Miss de Satge said she was amazed at the size of the students at PHS, at the beautiful and modern buildings and at the wonderful teachers. She compared them with her life in Northern Saskatchewan after her arrival from England at the age of fourteen.

Said Miss de Satge, "Our duty is to help other countries and other people get the facilities and needs that we already enjoy. We must be kind and unselfish."

The aim of the Red Cross is to live the Golden Rule every day which means trying to help our neighbors, our friends and enemies and our parents. The money collected by the Red Cross is used to help people, especially in isolated areas, who are ill, crippled or deformed, to become strong and healthy, the speaker explained.

"We want blood!" is the cry of the Red Cross. As long as healthy people give their blood other people may live and become well. Over a 1000 pints a week are needed by the city of Vancouver alone.

We have much to be thankful for. We are free from want and fear. Therefore we must collect and collect so that other people may have what we are enjoying today, Miss de Satge concluded.

Kay Hansen extended the thanks of the students to Miss de Satge.

Yellowstone Park, in Wyoming, Montana and Idaho, contains more geysers than in all the rest of the world.

#### STRAYING TEETH

When a small child loses one of his baby teeth prematurely, it may happen that the teeth on either side will grow into the space previously occupied by the lost tooth. Then, when the second or permanent tooth grows in the space is already filled and the second tooth is crowded out. This means that one or more teeth will be misplaced or crooked, with possible complications. Early dental treatment helps prevent this trouble.

# Stronger Measures To Prevent Irregular Shipping Of Fruit Are Recommended By Fruit Board

Employment of more inspectors to enable a closer check to be maintained on market movements of fruit was recommended by the B.C. Fruit Board in its report to the B.C.F.A. convention last week.

The board takes a serious view of the disruption of orderly marketing procedure by the operations of illegitimate shippers.

It is the opinion of the board that unless stronger action is taken irregular shipments will increase and may ultimately jeopardize the growers' marketing system.

Board members are G. A. Barrat, A. G. DesBrisay and J. G. Campbell.

Their report follows:

## MARKETING ACT

To those interested in the marketing of natural products under legislation, possibly the most important happening of the year was the decision of the Supreme Court of Canada declaring this Act to be within the jurisdiction of the Parliament of Canada. This case started in Prince Edward Island where, in an action dealing with the marketing of potatoes, the validity of the Dominion Act was questioned and it was declared by the P.E.I. Supreme Court to be ultra vires.

On appeal, however, the Act was sustained by the highest court in Canada so that it cannot now be challenged. The powers given to your board under this Act, giving it greater control over inter-provincial and export business, may be of much value to the industry in the future.

The policy of the board has been to avoid prosecutions as much as possible and to enter suit only in flagrant cases where an offender cannot be persuaded to observe regulations.

During the past year, it was necessary to prosecute on six occasions and, in each case, conviction was obtained. This does not, however, mean that there were not many other violations but, in attempting to keep the costs of the board at the lowest possible level, it has not been possible to employ a large enough staff of inspectors to do the job as thoroughly as might be desirable.

## ILLEGITIMATE SHIPPERS

We believe the time has come when a decision must be reached as to whether our markets shall be protected from the operations

of illegitimate shippers or these people be allowed to disrupt the orderly marketing program at great cost to the grower as a whole.

The market picture changes each year. There is now developing, for example, a large market for our products in Central and Northern British Columbia which will lose much of its value to our growers if individuals are allowed to exploit it in any way they see fit and this is one area that cannot be covered effectively by our present staff.

In another direction, there seems to have been a relaxation of U.S. regulations which now permit shipments of Canadian products to cross the border and reappear in Canada at another point of entry; the time has been reached when shipments through these ports will have to be checked, otherwise this movement will assume larger and larger proportions. Many other illustrations could be given to show where there are holes in our armor but, possibly, the two above will suffice for the purpose.

The members of the board believe that the great majority of our growers want to maintain and strengthen our central selling organization and that only a small minority is attempting to market individually. This minority, however, has an effect on the regular distributing trade far greater than the volume of fruit handled would suggest. A small quantity of fruit sold in a community directly to consumers or to retailers in competition with legitimate shipments will often so disturb the trade as to reduce greatly the volume sold at that point.

The recommendation of the board is that more inspectors be employed so that a better check may be kept on the market movement; for this purpose it may be necessary to double the present staff but we believe that this can be done without increasing the present licence fee.

If the convention adopts this report, without deleting this recommendation it will be taken by the board as being authorization to take such action as may appear to be necessary in the circumstances. It is the opinion of the members of the board that, if stronger action is not taken, irregular shipments will increase and may ultimately jeopardize our whole marketing system. It should be realized that, regardless of what is done, it will be impossible to police all danger points at all times, so that some fruit may slip through, but stronger action will undoubtedly improve the situation materially.

## ROADSIDE STANDS

The distribution of fruit through roadside stands to local consumers and to tourists has been growing rapidly in recent years. The board has felt that this is a useful medium for the disposal of fruit that, while over-mature for shipment to distant points, is in excellent condition for immediate consumption and that, if fruit from these stands is sold only to consumers, no great harm would be done to the distributing trade. On the other hand, if cull fruits were to be sold through these stands, the reputation of our products would be dealt a severe blow.

Early in the season the board issued a regulation requiring all fruit sold at roadside stands to be equal to grades established under the Fruit, Vegetables, and Honey Act and prohibiting the sale of culls.

On two occasions during the season inspection was made covering stands from Vernon to Osoyoos and including Kelowna. The reports from the inspectors indicate that, at the time of inspection, the fruits offered for sale were of better quality than those sold in previous seasons, if we can judge by the complaints received in those years.

Our inspectors at the borders of our area are instructed to allow not more than five packages of fruit in any vehicle to pass without permit so that, to avoid embarrassment to their customers from outside points, owners of roadside stands should avoid selling more than this quantity to any of these people.

On June 25, 1952, the following regulation was issued by the board: All cull apples shall be delivered by shippers as instructed by B.C. Fruit Processors, Limited, or by the agency.

Culls of fruits other than apples may be sold or delivered by a shipper only to local residents for home consumption; all such cull fruits not so sold or delivered must be destroyed or dumped by the shipper.

We find that there have been a number of instances where shippers have not observed this regulation and quantities of cull fruits have reached outside markets to the detriment of the industry as a whole. Our present staff of inspectors has not been sufficient to enable us to keep a check on this movement. With a larger staff, it is hoped to be able to control this movement effectively.

## BASIS FOR LICENCE FEES

Prior to the 1951 season, when calculating licence fees, soft fruits were recognized as two packages for

one of apples. At that time it became necessary to do more advertising of soft fruits and the two for one basis did not provide sufficient for this purpose so that, from then onwards, the same rate applied to all fruits. Now that the board is no longer financing advertising, the expenditures for which are now charged directly into the pools, it is the intention to revert to the old system and consider two packages of soft fruits as being equal to one of apples, pears or cranberries.

Formal board meetings are held only when it is necessary to issue regulations or to pass certain resolutions which must appear in the minutes; six of these meetings were held during the 1952 season but there were many other occasions when the members met for informal discussions which did not require recording. Only the chairman of the board is in the office of the year round, the other two members coming to the office when asked to do so. Of these two members, one resides in the northern part of the area and one in the southern part of the area and there are many occasions during a season when they are called upon to attend to matters arising in their own neighborhood. The number of formal meetings held gives little indication of the duties performed by the members.

## Freight Rates To Winnipeg Boosted

KELOWNA — British Columbia's fruit industry is faced with another serious increase in freight rates which went into effect at the first of the year. To Winnipeg, the freight rate has increased four cents per box on apples.

Freight rate on a box of apples to Winnipeg up to the end of the year was 93 cents. Now it is 97 cents per box.

Soft fruit rates have also gone up and now it will cost 61 cents a box to reach the Winnipeg market as against 56 cents previously. With a longer mileage, Wenatchee and Yakima could ship to Winnipeg at a cheaper rate than B.C. growers. It is also cheaper for Okanagan apples to be shipped by truck to Oroville, loaded on the Great Northern and shipped to Winnipeg via that railway than to ship direct over Canadian lines. A saving of 15 cents per hundredweight would result.

At present 90 percent of soft fruit shipments to Vancouver now go by truck. It is understood B.C. Tree Fruits plans to increase its shipments by truck to prairie markets in the coming season.

## DANDELION BEST KNOWN FLOWER IN CANADA

Beloved by chipmunks, small children and bumble bees—detested by gardeners and greenkeepers the dandelion may now be regarded as the best known flower in Canada. It is not generally known that this most enterprising immigrant first gained entry to the dominion by way of Hudson's Bay. Some two hundred and seventy-five years ago the Gentlemen Adventurers trading thereabouts craved greenstuffs for salad and deliberately imported dandelions from England. Picture them, if you can, setting out, watering and weeding the choice plants, hopeful that the climate would prove congenial. It did.

The dandelion ranks high amongst beverage plants. Some people are fond of the tender young leaves as a vegetable, others extract a pale imitation of weak coffee from the roots. The golden flowers yield a wine which if properly made and

## Better Fruits Committee Report 'Meaty' Document

Recommendations and decisions made by the Better Fruits Committee during the past year were embodied in the committee's annual report to the delegates at the annual BCFGA convention in Vernon last week.

The committee of 25 is made up of 11 delegates from the Okanagan Federated Shippers' Association; BCFGA, 7; B.C. Tree Fruits, 3; Summerland Experimental Station, 2; horticultural branch, 1, and fruit inspection service, 1.

The report follows:

This committee was set up by Okanagan Federated Shippers' Association December 4, 1946, following a fairly general criticism of the performance of packinghouses by officials of the Sales Office, and the inference that the quality of the B.C. pack of fruit was deteriorating. The federation felt that the most effective way to correct any weakness that might have developed, and to prevent other weaknesses from creeping in, would be the formation of a strong committee on an industry basis, and therefore invited representation from B.C. Tree Fruits Limited, BCFGA, experimental station, horticultural branch and later from the dominion fruit inspection service.

The points of reference at the time the committee was set up were: "To investigate the causes of deteriorating quality of fruit pack, and to recommend and direct a program of remedy."

For the information of delegates to your 1953 Convention and growers generally, the committee reports as follows covering their activities for the 1952-53 season:

### JONATHAN PROBLEM

Early in the year a special sub-committee was set up to deal with the problem which had developed in connection with Jonathan apples. This committee met on April 4, and after a fairly thorough review of the qualities and market prospects for this variety, passed the following resolution: This sub-committee recommends:

That Jonathans be removed from the fresh fruit market and sold to canners and processors;

That for the purpose of bringing about the reduction or elimination of this variety, the position in the pool be adjusted downward over a period of about 5 years;

That the matter of Jonathan markets be surveyed annually with a view to arresting the elimination of the variety should market conditions, at any time, improve to the point where no further elimination appears necessary;

It should here be pointed out that while the third clause of the

above resolutions makes reference to improvement in the market demand for Jonathans, it was understood by the committee and by all concerned that any improvement in market demand could only be brought about by a definite improvement in the quality of keepability of the variety.

On June 6 a meeting of the main committee was called for Penticton for the purpose of ratifying the recommendations of the Jonathan Sub-Committee, and to develop a program of improvement of maturity standards and handling of stone fruits and pears. For a number of reasons the attendance at this meeting was very disappointing, but the committee made the following decisions and recommendations:

Approved the resolution of the special sub-committee on Jonathans, and urged that every effort be made to acquaint growers with the recommendations and the reasons therefor.

That it is detrimental to the best interest of the B.C. prune deal to ship straight No. 2 prunes, and that shipments should be confined to No. 1s, with an orchard-run pack marked "2s" for a limited period only at the beginning of each season.

That packinghouses be asked immediately to indicate to the committee secretary the prospects of the 1952-53 crop from the standpoint of quality, so that the sales office might be able to determine sales policy based on the most reliable information available;

ELIMINATE SMALL SIZES

That we recommend the elimination of size 193s in all varieties of pears, from fresh or canner markets; (It should be pointed out at this time that the Special BCFGA pear committee was now working as a sub-committee of the better fruits committee).

That packinghouses be asked to co-operate to the maximum in informing growers of the recommendations of the special pear committee, and particularly with respect to proper picking dates for the various varieties;

That we support the recommendation for the elimination of certain sundry varieties of pears, now pronounced as undesirable by the sales office, and which have a depressing effect on the market for all pears, if shipped;

That the packinghouses be asked to give a great deal more supervision to the harvesting of apricots, particularly Moorpark, at the proper stage of maturity;

That in respect of pears we recommend a discount on sizes 72s and 78s, and that 84s be eliminated;

That in particular respect of apples and pears we recommend to packinghouses the use of dial scales in the line in order to avoid bruising caused by underweight and overweight packs;

That we recommend to B.C. Tree Fruits Limited, that in view of the marketing prospects and past sales history, it is desirable that small size apples be eliminated by the process of thinning, and that it is desirable that growers be informed through grower-bulletins, grower-broadcasts, etc., of the probability that certain of the smaller sizes of apples that have been packed in the past, will probably not be packed during the coming season; and further that packinghouses be asked to continue to disseminate this information to their growers through bulletins and through their fieldmen;

The committee met again on August 28, reviewed their recommendations of June 6, and adopted the following further decisions or recommendations:

(Prunes) That we recommend to B.C. Tree Fruits Limited that after the closing of the second pool, only No. 1 prunes be packed, and that it be left to the discretion of B.C. Tree Fruits Limited, as to whether or not hauled, orchardrun, marked "2s" should be sold;

That to correct our problem with regard to prune pack, more drastic action will have to be taken, probably in the form of substantial pool differentials, to encourage better cultural methods, and to make it unprofitable to grow low-quality prunes;

That we ask the packinghouses to co-operate with the special pear committee, to see that Anjou pears are harvested at the proper time as indicated by the district horticulturist;

That we recommend, for this year, that all McIntosh be delivered to the packinghouses within 21 calendar days from the date of commencement of picking in each area;

SET PICKING DATES

That we ask the district horticulturist to set picking dates for the various varieties of apples and in the various distribution with whatever additional breakdown of districts he finds possible.

That we recommend that Golden Delicious be left on the trees for harvesting concurrently with Vinesaps.

That the harvesting of Jonathans should be complete within 12 days of commencement in any district, or not more than seven days after

the deadline indicated for the harvesting of McIntosh.

That it is most important that Delicious, Standards and Reds, be delivered to packinghouses within 72 hours at most, from time of picking.

That growers be encouraged to harvest Vinesaps a little earlier than has been the custom recently.

That we repeat our previous recommendations with regard to dial scales in the packing line to ensure against excess bruising in packs too light or too heavy.

That all packinghouses be circularized immediately with respect to the use of a new type hormone "stick-on" spray.

That the minimum diameter for apricots be raised by 1/8 inch for both canning and fresh markets, (and to obtain the desired size that growers be encouraged to do more thinning).

That with respect to apricots, the definition or requirements for "T" maturity be raised sufficiently to require a stage of maturity that will ensure development of satisfactory quality for delivery to the consumer.

That all apricots be precooled before shipment unless they are loaded into refrigerator cars on the day they are received by the packinghouse.

That with respect to peaches, sizes 78s and smaller be eliminated from fresh market and canner shipments.

That with respect to peaches, size 72s in all varieties be subject to a substantial arbitrary (discount) in order to discourage the production of small and unpopular sizes and to suitably remunerate for the production of larger and more acceptable fruit.

That the minimum maturity for peaches be "firm" and that peaches classifying as "hard" be regarded as culls.

We are particularly indebted to R. P. Murray and his staff for fixing picking dates, and to Dr. R. C. Palmer and his associates for the technical assistance so freely extended to the committee at all times.

This committee feels that it has been instrumental in bringing about a measure of improvement in maturity standards and in the general quality of the pack, but there is still plenty of room for improvement and particularly with respect to maturity and sizing of stone fruits. It is also considered essential that more uniform weights be attained in our apple and pear pack and, to this end, packinghouses are being urged to install dial type scales in their lines.

The change in crop and marketing conditions has placed a very heavy load on the packinghouse managers and fieldmen. We feel we have had excellent co-operation. However, the job appears to be a "never-ending" one and we feel confident that we shall continue to warrant their support.

Caterpillars have nearly four times as many muscles as humans.

### BCFGA Grades Committee Chiefly Concerned With Package Question

Various aspects of the package question were the main concern of the BCFGa grades committee during 1952. This was indicated in the annual report submitted to the BCFGa convention in Vernon last week. Committee members are A. K. Loyd, chairman, Eric Tait, C. P. Gallacher, Jr., J. H. Blackey, George Mabey, George Clark, D. P. Frazer and K. W. Kinnard.

The report follows: Since the last meeting of the Canadian Horticultural Council, one of the items which has concerned the grades committee in particular has been the interpretation of clause seven of the regulations of the Fruit, Vegetable and Honey Act. Those who are familiar with the regulations referred to will remember that the main item in this clause was to the effect that packages imported into Canada at a time when they were in competition with Canadian packages for a similar commodity, must conform to the specifications for the Canadian package.

Last year considerable discussion took place, due to the fact that some United States packages, which had been imported immediately previous to the Canadian product going on the market, were still in storage or in wholesalers' hands at a time when they would conflict with the literal interpretation of this clause.

This industry has, whenever consulted, been reasonably tolerant in agreeing that such importations that were on hand after the deadline, could be disposed of, but representations were made at the horticultural council that the clause as worded was difficult of administration and caused some friction. After a keen and detailed discussion on the subject this industry, together with Ontario, indicated their willingness to agree that the clause should be modified to the extent that packages to a limit of two percent in cubic capacity below, or five percent above, a similar Canadian package, might be admitted. This was later changed to two percent and six percent.

Since that time a good deal of correspondence has ensued, and there seems to have been pressure from both exporters and importers to widen the tolerance considerably. Your grades committee representatives have invariably opposed any further widening, and will continue to do so.

Our present regulations have not worked an intolerable hardship on exporters from other countries, and in view of the fact that in several respects the import duties were reduced at and since the Geneva Convention, we have taken the stand that quite adequate access is already provided to markets which are the natural outlet for the Canadian crop.

During the season the usual requests were made for concessions, as follows: On plums — for No. 1 grade, 75 percent No. 1, 25 percent No. 2 in the west; prunes — for No. 1 grade, 75 percent No. 1, 25 percent No. 2 in the west; apricots — for No. 1 grade, 75 percent No. 1, 25 percent No. 2 for all Canada; peaches — for No. 1 grade, 85 percent No. 1, 15 percent No. 2 in the west.

For Hyslop crabapples the following concession — "That the Hyslop variety shall have not less than 10 percent color, and not less

### BACKACHE May Be Warning

Backache is often caused by faulty kidney action. When kidneys get out of order, excess acids and wastes remain in the system. Then backache, disturbed rest or that tired-out and heavy-headed feeling may soon follow. That's the time to take Dodd's Kidney Pills. Dodd's stimulate the kidneys to normal action. Then you feel better — sleep better — work better. Get Dodd's Kidney Pills now. 61

### Stak-Lok Lugs and Tray-Packs Prove Satisfactory Container Committee Report Indicates

Search for better and cheaper containers is still being carried on the report of the box shock and industry container committee reveals. The report was submitted last week at the annual BCFGa convention in Vernon. Acting on the committee are G. D. Fitzgerald, chairman; J. Finch, J. R. Jordan, L. R. Stephens, A. C. Lander and W. Thomas. The committee's report follows:

During the 1952 season your committee has been re-organized and reduced in number to make it more maneuverable.

**SHOCK PRICES** No price change upward or downward has been made since September, 1951, at which time the price was increased approximately 15 percent bringing the price of apple box shock up from 39.3c to 45.2c. As lumber markets weakened early in 1952, an individual apple was made to shock mills for a reduction of shock prices, but to date no reductions have been made. At the moment of writing this report, wage demands are being made upon some shock mills which would still further increase shock production costs.

A plentiful supply of stock was available in all areas from regular suppliers and deliveries, generally were made earlier than usual, and with the subsequent use of a large number of fibre containers, many packinghouses have a substantial inventory of made-up boxes and shock.

Early in the season B.C. Tree Fruits Ltd., made arrangements to experiment with 190,000 Stak-Lok lugs for the bulk movement of McIntosh. The capacity of these lugs is just a little more than half that of a standard box and the cost in capacity-relationship. This container was put up under the "Handi-Pak" label and proved very popular in all western Canadian markets.

**FIBRE CONTAINERS** On August 18, at a meeting of Okanagan Federated Shippers Association and B.C. Tree Fruits Ltd., an arrangement was made for the packing of 300,000 tray-packs in cartons, and about 15,000 standard bushel bulk cartons. About

ages is justified and that heavy construction, wet-strength fibre cartons offer the best prospects for cutting container costs.

One fairly large manufacturer is now working on a wooden box, using a larger proportion of veneer than our present standard box. Two other mills are working on boxes of hard-board and pressed-board construction, and it is possible we may have samples of these on display at the convention.

#### SUBMISSIONS TO GOVERNMENT

In February your committee made a submission to the minister of lands and forests with a view to reserving certain timber contiguous to the general areas of fruit production for the manufacture of containers for the industry, and with a view to a special concession in the stumpage and royalty rates on timber used for fruit and vegetable containers.

On Saturday, December 13, in company with R. L. Stephens, I called on the Hon. R. E. Sommers, minister of lands and forests, and Premier W. A. C. Bennett, to renew the request that had been made to the previous government.

"... the willingness  
to find a way"

A man who started a new business a few years ago recently wrote to pay tribute to the bank's part in helping to make it a success:

"We were fortunate in having, as our banker, a man who could combine with experience the willingness to find a way that called not for experience alone but for imagination as well."

The chartered banks are forever alert to the fresh problems, the changing needs of their customers. At all times, in all your banking problems, you can depend on your local bank to bring experience and imagination to the task of helping you to "find a way".

## The Bay's GREAT FAMILY HOSIERY EVENT

### "Whisper" Nylons

At the Bay you will always find a wide selection of famous "Whisper" nylons by Super-silk. These high quality nylons have extra-strength features in the reinforced heel and toes. See the lovely assortment of shades, including Prince Charming and Twelve O'Clock in sheer 51 gauge, 15 denier.

Also "Whisper" 45 gauge at 1.35 pair  
"Whisper" 51 gauge at 1.75 pair

### CHILD'S HOSIERY

Cotton and wool blend hose in the popular 1x1 rib knit, a favorite for years. Full length in beige and black. Broken sizes 6 to 10. Regular .60 to .80 pair. Special, pair 59¢

### Men's Ankle Socks

The ever popular short socks at a real low price. These are taken from our regular stock and reduced for this event. All sizes and colour combinations. Elastic snug fitting tops. Priced, pair .79

### Men's Nylon Socks

Substandards of the 1.50 line in many pleasing colours. Clock design. Sizes 10 1/2-12. Buy several pairs at this low price. Priced, pair .85

### Boys' Nylon Ankle Socks

A long wearing sock for the boys. Made just like Dad's. Many pleasing shades and patterns to choose from. All sizes, pair 1.00

### Men's Work Socks

Made by Stanfields, these all wool Work Socks will really wear as they are reinforced at heel and toe with nylon. Grey with white heels and toes and red tops. Priced, pair 1.00

### Men's 1/2 Hose

A grand assortment of regular length hose in many pleasing colours. Made to sell at 1.50 pair. By Holoproof. 10 1/2-12. Pair 1.00
